MAINTENANCE

Composition: 100% Polyester

Care: Concerning the daily cleaning of the fabric upholstery, use a soft cloth in order to remove dust. Avoid vacuum cleaners or carpet-beaters which can damage the padding and the upholstery as well. In case of stains, try to act as soon as possible and treat the surface with a white and well cleaned cloth, dampened with lukewarm water (beginning from the edges to the inner part). If needed use the cloth slightly moistened with a specific cleansing detergent. Don't use the detergent directly on the fabric. Let the fabric dry in the open air. Don't iron or vaporize.
