"ABLE " specializes in the production of
high-end home furnishings and large productions
(residential, community, and public buildings) utilizing a
blend of the highest quality raw materials,
modern manufacturing technologies, and traditional know-how.
Founded as a company manufacturing sofas and loose
furniture, we now produce a complete design
and production
offer for the home and commercial spaces.

A LETTER FROM "ABLE BE MODERN" GROUP

At Able Be Modern, craftsmanship, innovation, and vision define who we are. To those who have trusted us since our beginnings as VIP Saloti, we offer our deepest thanks. To those just discovering us, we look forward to building something extraordinary together. Blending artisanal mastery with modern manufacturing, we create contemporary furniture for private residences, hospitality, and public spaces worldwide. Across more than 600,000 square feet of production space in Southeastern Europe, we remain grounded in tradition while embracing a forward-looking spirit. For us, growth is a matter of balance — honoring our heritage while shaping a more remarkable, sustainable future. Thank you for being part of the Able Be Modern journey!

ABOUT *Us*

Since 1993, Able has stood at the forefront of modern furniture manufacturing in Southeastern Europe, specializing in refined residential and bespoke contract pieces. Originally rooted in upholstered furniture, the company has evolved into a multidisciplinary powerhouse—executing full-scale projects across hospitality, commercial, and luxury residential sectors.

Driven by innovation, Able has cultivated a reputation for cutting-edge production technologies and meticulous craftsmanship. Its team of artisans and engineers share a singular pursuit: to create high-quality pieces that fuse aesthetics with functionality, tailored for the world's most discerning spaces.

From private villas, offices, and yachts to boutique hotels, resorts, and exhibition spaces, each project is a testament to Able's dedication to detail, timeless design, and exceptional materials sourced from leading global suppliers. Whether producing for a luxury jet or a landmark resort, Able brings artistry and precision to every curve, finish, and silhouette.

A GLOBAL VISION, *Crafted in* ALBANIA

Able's headquarters and manufacturing facilities are based in Vlora, Albania, where tradition meets cutting-edge capability. Spanning over 500,000 ft², with an additional 400,000 ft² expansion underway, the site serves as an international hub for design collaboration. The brand continuously partners with emerging and established architects and designers who seek to challenge convention and craft the future of contemporary living.

With a strong commitment to sustainability, innovation, and excellence, Able is proud to contribute to shaping the modern design landscape—one bold concept at a time.

ABLE COMPANY HISTORY — KEY MILESTONES & *Global Growth*

- 1993 — Founded in Vlora, Albania, as a small artisan workshop focused on upholstered furniture.
- 1998 — Expanded production capabilities and formalized company operations under the name “Able.”
- 2004 — Introduced CNC machining for precision woodwork—marking the beginning of industrial scaling.
- 2010 — Signed first international contract with a boutique hotel group in Italy, marking the start of Able’s export journey.
- 2013 — Established dedicated divisions for metalwork and casegoods, enabling full-package solutions for hospitality and residential projects.
- 2015 — Formed an internal R&D and design department, laying the groundwork for proprietary collections and customization capacity.
- 2017 — Entered EU and GCC markets through key partnerships in Italy, France, and the UAE. Able furniture featured in villas, showrooms, and public spaces abroad.
- 2019 — Integrated marble, glass, and ceramic finishing into production; supported large-scale hotel projects in France, Switzerland, and Northern Africa.
- 2021 — Full tech upgrade: introduced European-grade machinery, IMOS-based production automation, and industry-aligned compliance systems.
- 2022 — Launched early-stage sustainability actions and strategic partnerships with design firms in the UK, USA, and MENA region.
- 2023 — Expanded design network globally; participated in international trade events; opened direct B2B relationships with architects and developers in London, Dubai, and Paris.
- 2024 — Formalized Sustainability Plan and launched #ReDesignNature. Solar energy implementation and environmental KPIs shared with international clients.
- 2025 — Increased production capacity by 35%. Reached 62% solar energy use. Achieved zero compliance violations across all operations. Active presence in over 12 countries, including long-term B2B partnerships in the United Kingdom, France, Italy, Austria, the UAE, the United States, and newly established collaboration in Israel.

ABLE SUSTAINABILITY *Path*

At Able, sustainability is not an external certification — it is our daily practice. Every decision, from material selection to energy use and supplier choice, reflects a deep respect for craftsmanship, community, and the natural environment. Rooted in Albania and connected to the world, Able has embraced a holistic sustainability path that unites ethical governance, circular design, and technological innovation.

GOVERNANCE AND ETHICAL RESPONSIBILITY

Able operates under a comprehensive Management and Ethics Framework aligned with European sustainability standards. We adhere to transparent reporting, equal opportunity employment, and responsible growth policies. Our internal Sustainability Program — launched in 2024 — guides our long-term goals across environmental, social, and corporate dimensions, with clear key performance indicators (KPIs) monitored each year.

We are committed to the United Nations Sustainable Development Goals (SDGs), focusing on ten priority objectives: clean energy, responsible production, decent work, gender equality, reduced inequalities, and climate action among them. Sustainability is not a division of our company; it is the foundation of how we design, produce, and build partnerships.

ENVIRONMENTAL *Responsibility*

ENERGY AND EMISSIONS

In 2024, Able installed a photovoltaic system at its main Albanian production site, generating over 160,000 kWh annually — now covering 62% of total electricity needs. This transition reduced our CO_2 emissions by approximately 70 tonnes per year and cut grid dependency to under 7%. Biomass heating systems fueled by production offcuts and LED automation further minimize our energy footprint. We aim to phase out all diesel-powered delivery vehicles by 2026 and continue to prioritize renewable energy sources for both production and logistics.

MATERIALS AND CIRCULAR PRODUCTION

Every material we use tells a story of accountability. Our timber comes exclusively from FSC®-certified European forests, ensuring traceability and responsible forestry. We work with Italian and French partners to source eco-certified fabrics and full-grain leathers — breathable, durable, and processed under strict environmental standards. More than 80% of newly onboarded suppliers are evaluated on environmental certifications, waste policies, and carbon initiatives. Wood offcuts are repurposed for heating, and all packaging is recyclable or reusable, reinforcing a low-waste, circular economy model.

CRAFTSMANSHIP AND PRODUCT *Longevity*

True sustainability begins with timeless design. Our products are created to endure — in use, in quality, and in emotion. By combining handcraftsmanship with digital precision, we reduce production waste and ensure a consistent level of excellence. All furniture is built with replaceable components and repair-friendly structures, extending the life of every piece.

Able invests approximately 2% of its annual turnover in product research and innovation, exploring organic coatings, low-VOC finishes, and recyclable materials. This approach ensures that design innovation and sustainability progress together.

SOCIAL AND COMMUNITY *Commitment*

Able's success is built on people. Our workforce of over 210 team members and collaborators operates with equality and inclusion at its core — 45% women, 55% men, and a growing representation of protected categories. We actively invest in technical education and local employment, offering apprenticeships and partnerships with universities and design institutes in Albania, Italy, and abroad. In 2024 alone, our teams completed over 900 hours of internal training, strengthening safety, skill, and innovation.

Workplace health, safety, and well-being are formalized through our internal Employee Engagement and Well-being Panel, ensuring open communication, transparent policies, and continuous improvement. We record zero serious workplace injuries and maintain full compliance with European labor standards.

A RESPONSIBLE *Future*

From renewable energy and certified materials to ethical governance and inclusive growth, Able's mission is to design beautifully — and responsibly. Our promise is simple: to build furniture that honors both the people who create it and the planet that inspires it. Design and nature walk hand in hand — shaping not only how we furnish spaces, but how we envision the future.

OUR COLLABORATION PROCESS.

Growth is a matter of perspective and balance - while we are grounded in traditional philosophies we are also in-tune with our present global landscape and the importance of innovation. It is important to position ourselves to become a key destination/incubator, engaging the creative minds of new and emerging Designers/Design Institutions from around the world that want to challenge the status-quo.

DISCOVERY AND DEFINITION We study the design value, wholly under-standing the full spectrum of needs, desires, behaviors, context of the market and how the potential design will satisfy, functionally and practically while maintaining aesthetic appeal.

DESIGN
Ideation of a unique fluid interaction, AI and flow optimization. Translate the insights into a new product, through a seamless combination of physical and digital design. Brainstorm and design exploration of different configurations and architectures through sketches, mood-board and renderings.

DEVELOP AND ENGINEERING
Our blend of cross-pollination between design disciplines, thoughtful craftsmanship, and collaborative practices with engineers creates the stimuli for high-quality creations. Merging both expertise and vision, here hearts and hands meet to breathe new life into spaces and products.

BRING TO MARKET
We believe that products are among the critical factors that create an enhanced human experience, and that Great design is Great for business. The measurable impact of design in physical space is, however, frequently underes-timated, and most companies have no sys-tematic approach to creating a differentiated experience. Together, we enhance the consis-tency of the designer/architect product experi-ence across all the company touchpoints and we support our partners to build the marketing and communication strategy.

CRAFTED *in* EUROPE

At Able, every design is a delicate, artisanal pursuit — a quest to reveal the unique personality of each piece. Our commitment to handmade craftsmanship and precise detailing defines every product we create.

We exclusively use premium, high-quality materials sourced from leading European suppliers, ensuring excellence at every stage. Every component — from the raw materials to the finishes — is thoughtfully selected and crafted within Europe.

CROWNE PLAZA DURRËS

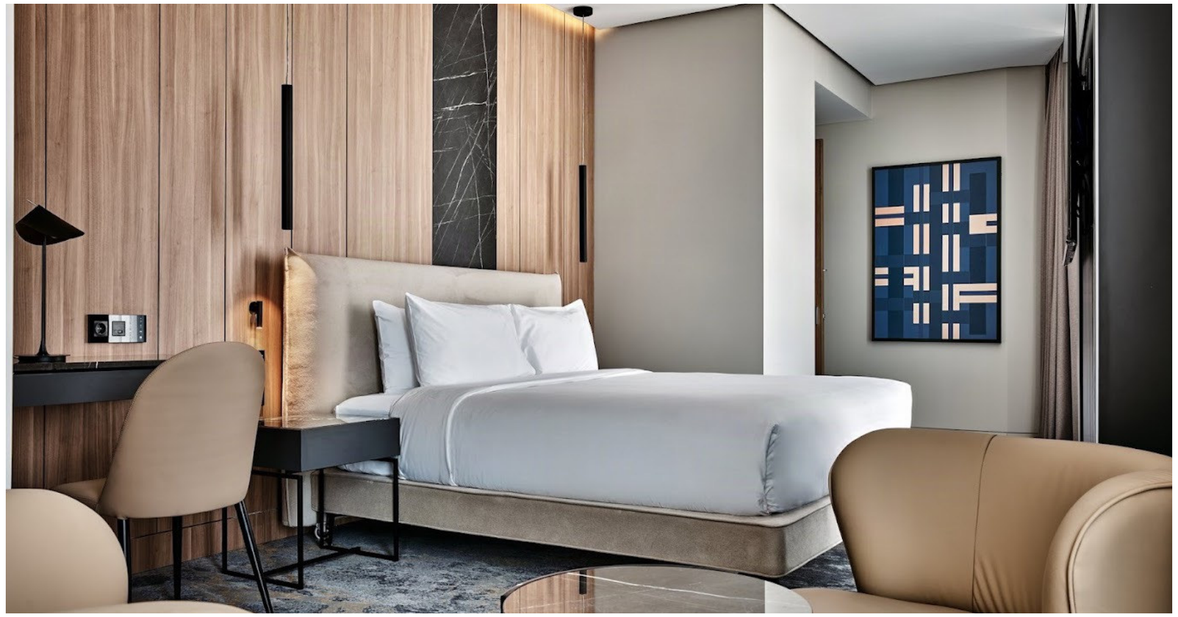
- **Hotel / Developer**: Crowne Plaza Durrës, Albania — IHG Hotels & Resorts
- **Location**: Durrës, Albania
- **Client / Consultant**: Mediterranean Investment Group
- **Project Phase**: Completed, opened 2026
- **Project Type**: Hospitality Guest Rooms (Fully Bespoke)

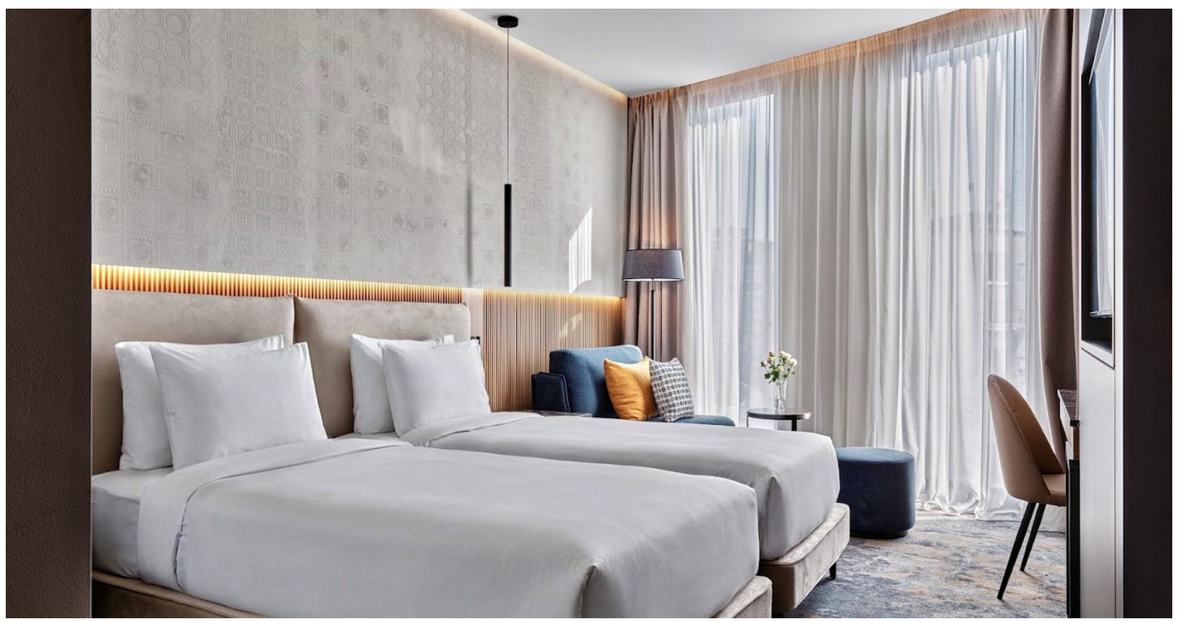
This project involved the full-scale furnishing of 134 guest rooms developed in collaboration with Crowne Plaza Durrës as part of the hotel's waterfront hospitality development in Durrës.

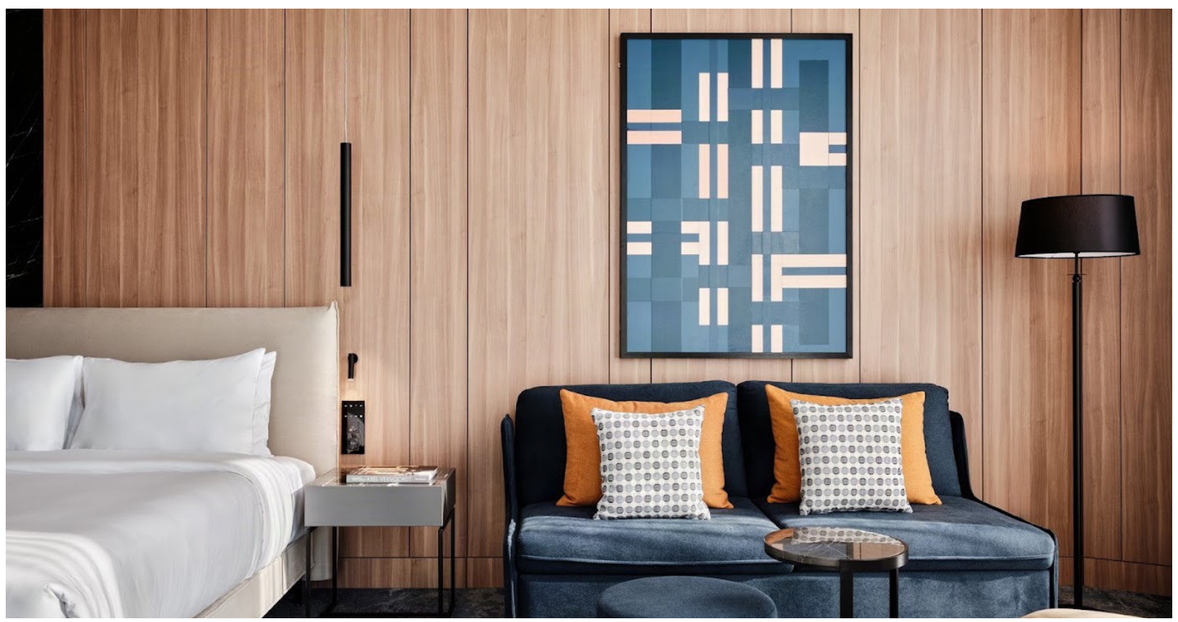
Executed entirely by Able, the rooms were fully bespoke, manufactured strictly in accordance with the client's aesthetic preferences and international hospitality standards. Able was responsible for the coordination, bespoke manufacturing, and delivery of fixed and loose furniture across all guest rooms.

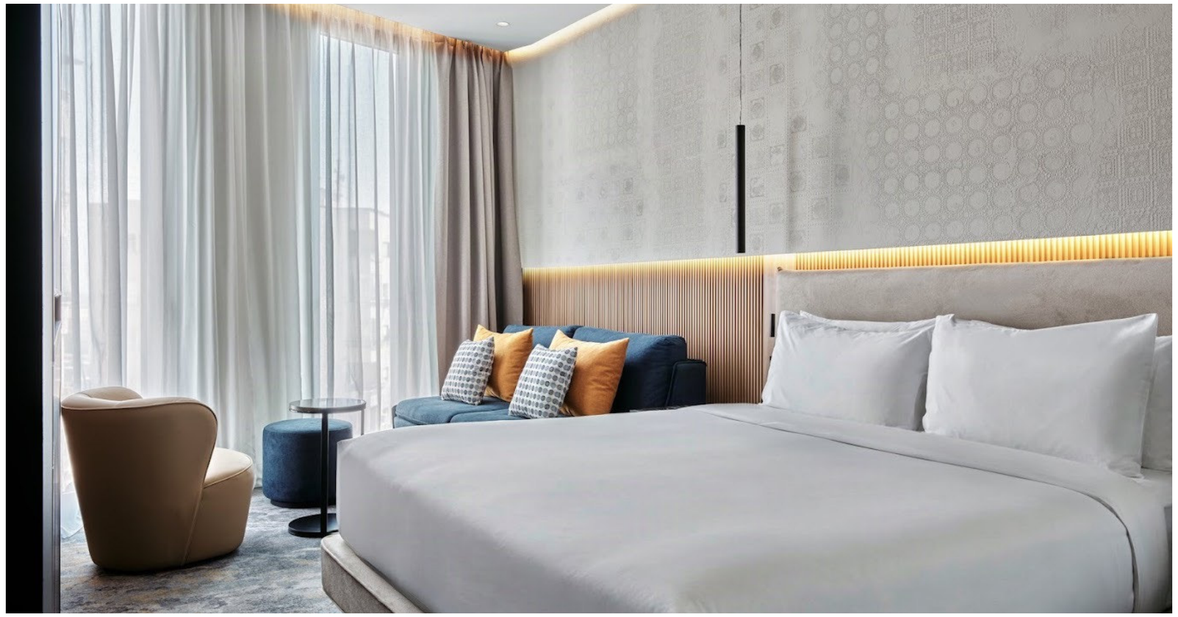
The concept balances the refined, contemporary language expected of a premium international hotel brand with careful material selection and detailing, ensuring consistency across every unit and full alignment with the client's design intent.

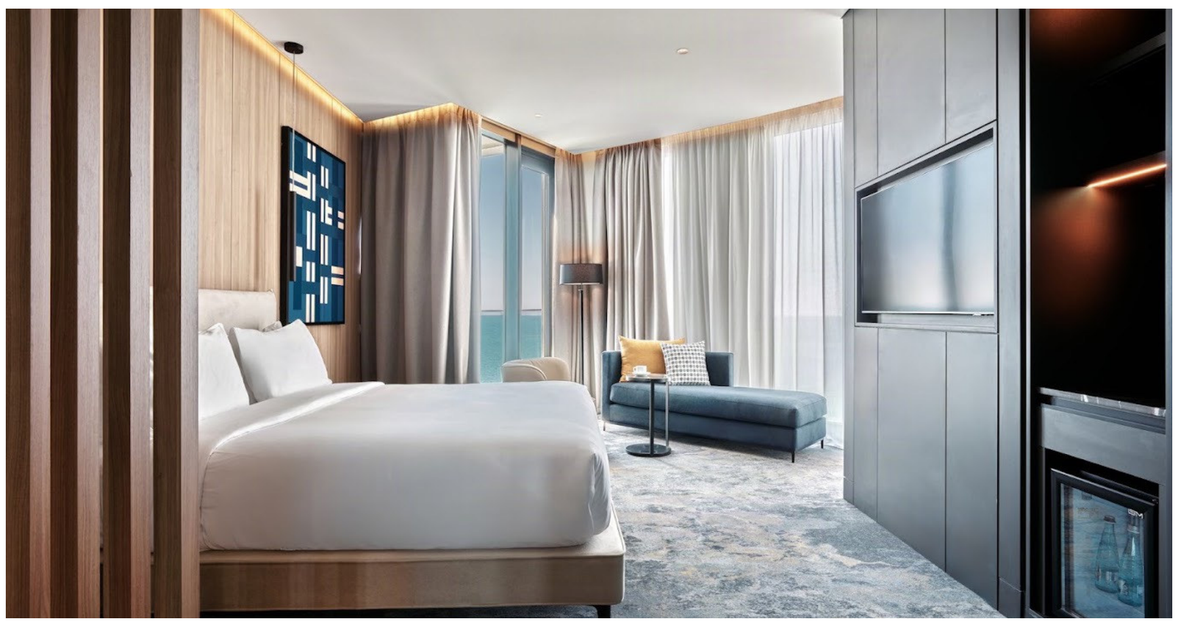
This completed project stands as a reference benchmark for Able's capability to deliver bespoke hospitality interiors at scale, meeting the technical and design expectations of both international hotel brands and private developers.

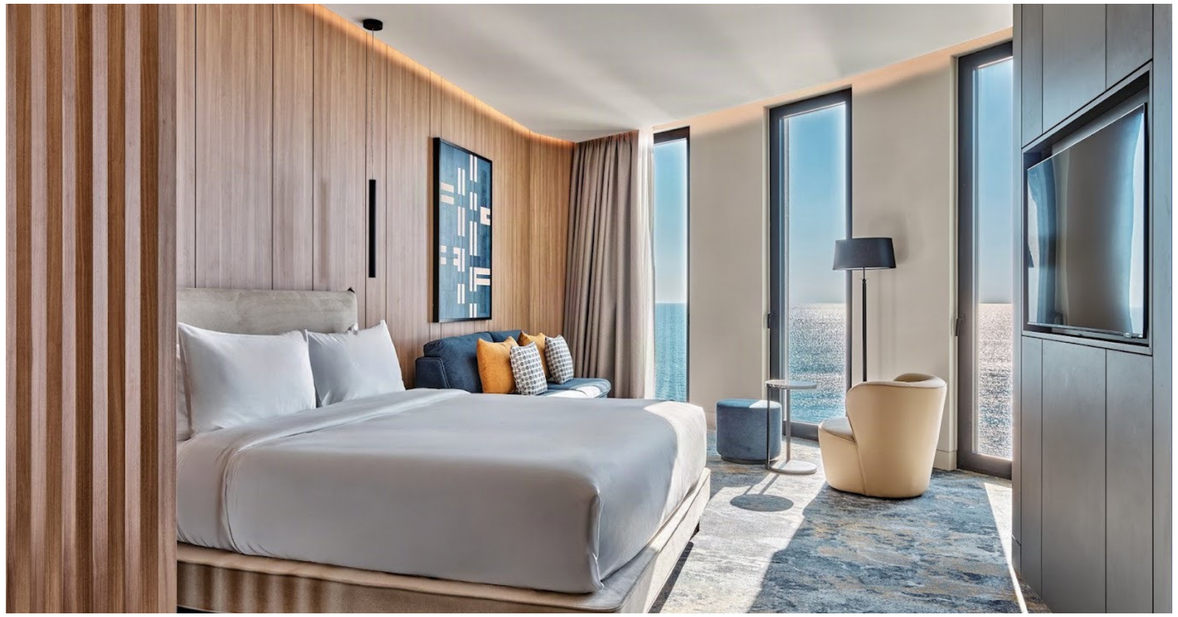


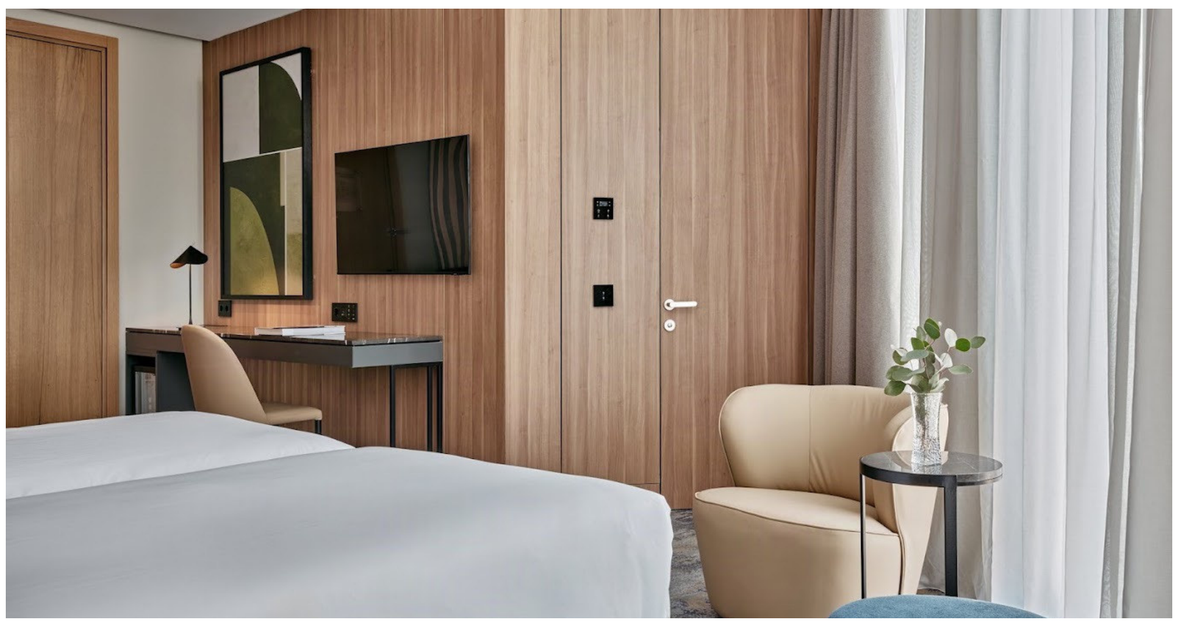


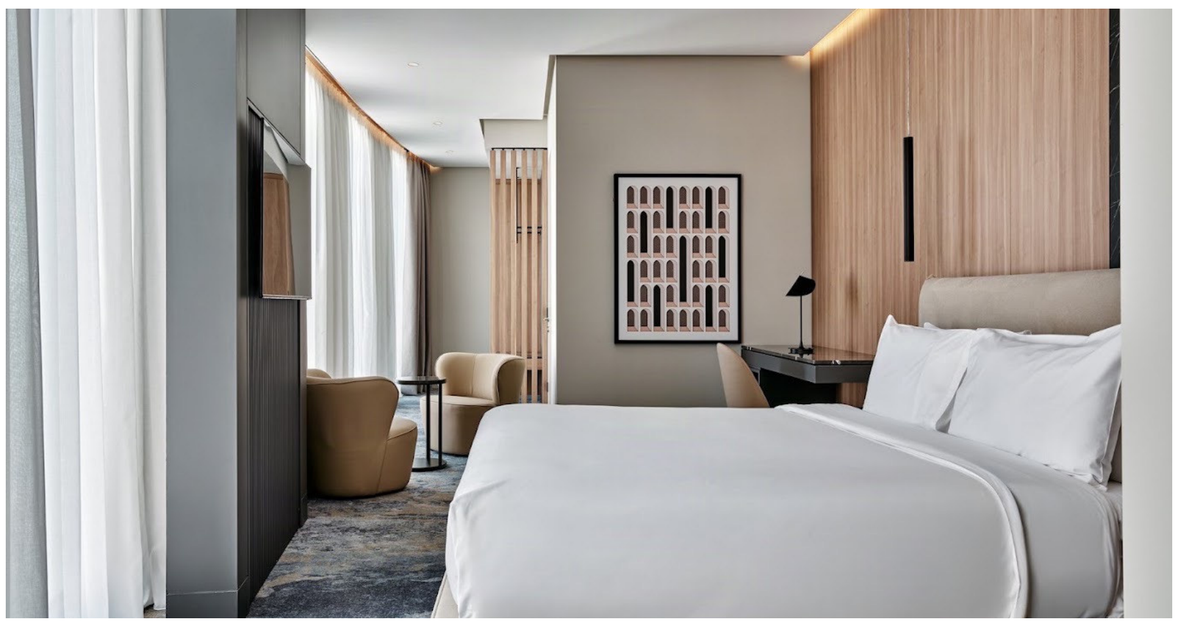


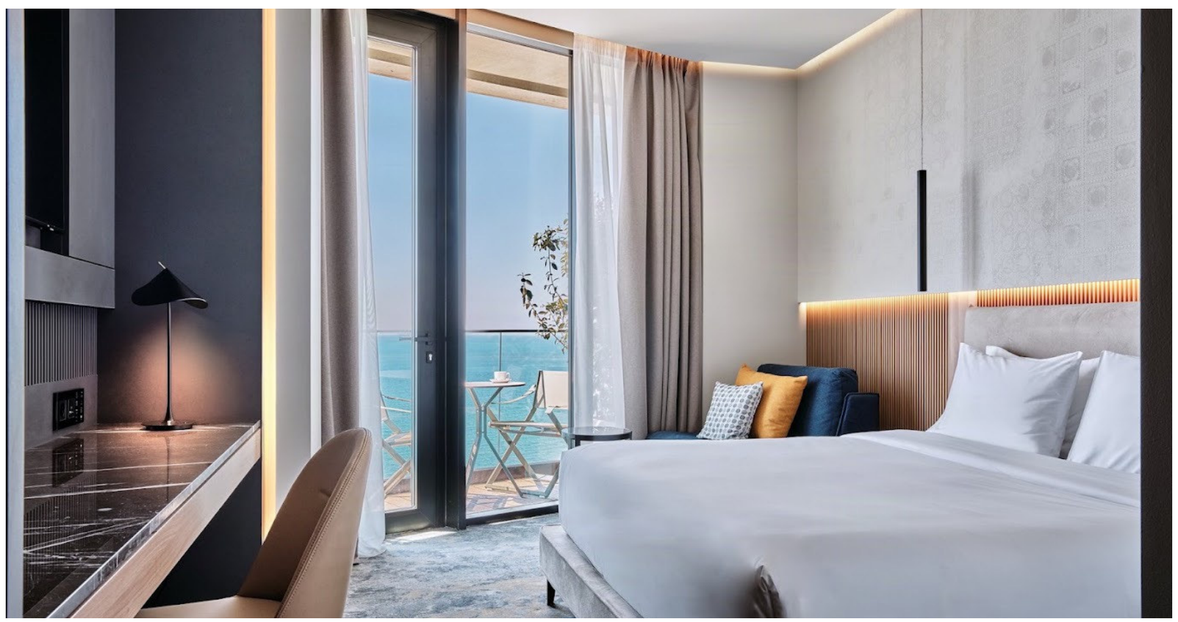


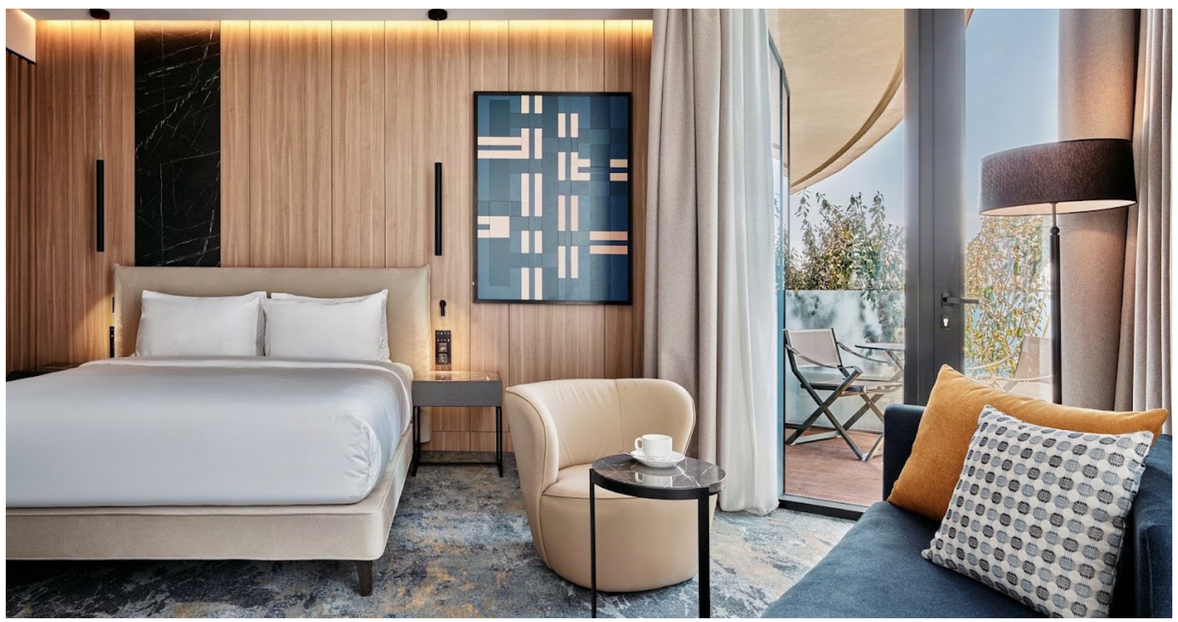


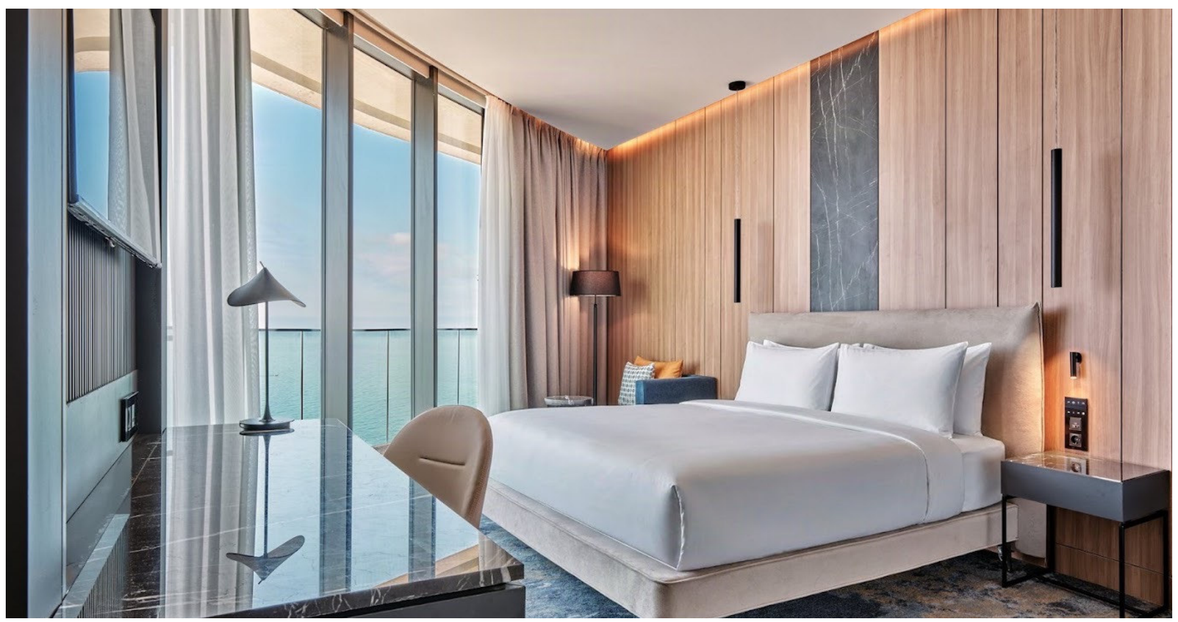


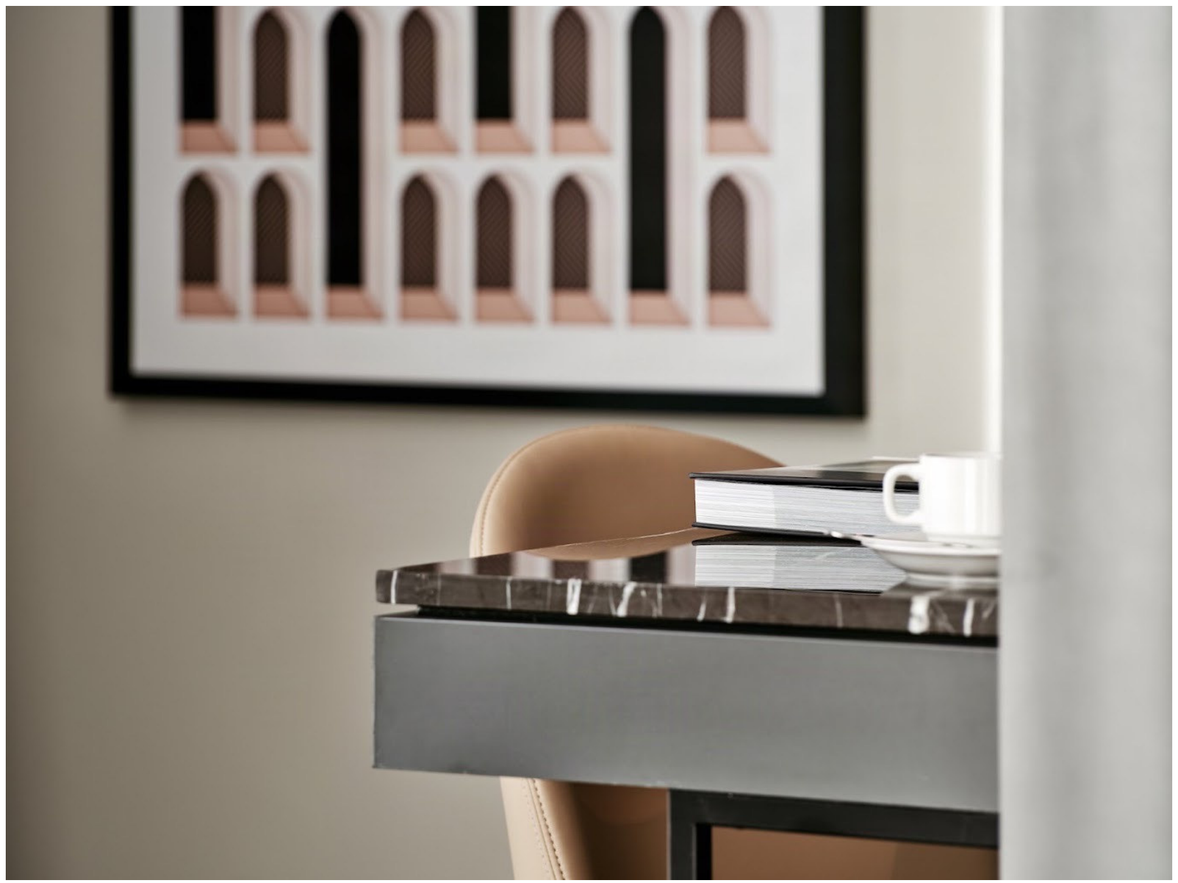












MARRIOTT UGANDA

- **Hotel / Developer**: Marriott Uganda – Kampala
- **Location**: Kampala, Uganda
- **Project Designer**: Ricardo Giovannetti
- **Client / Consultant**: Ponsiano Ngabirano
- **Project Phase**: Construction Phase (Apartment Mockup Completed)
- **Project Type**: Residential Apartment Mockup (Fully Custom-Made)

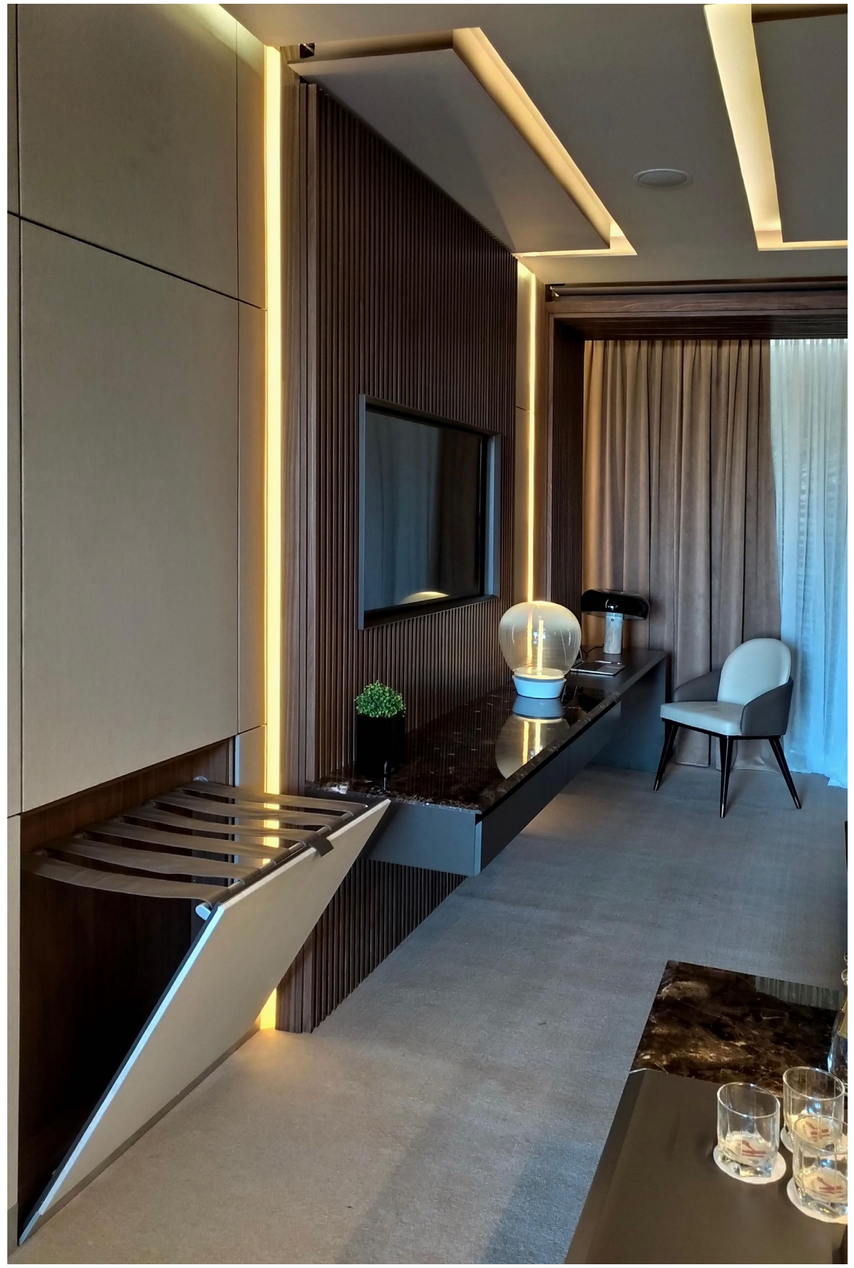
This project involved the execution of a full-scale residential mock-up unit developed in collaboration with Marriott Uganda as part of their hospitality development in Kampala.

Designed by Ricardo Giovannetti, the unit was fully executed in accordance with the project's interior design specifications, with all elements custom-made to meet the client's aesthetic, functional, and quality requirements. Able was responsible for the coordination, bespoke manufacturing, and delivery of fixed and loose furniture for the mock-up.

The concept balances international hospitality standards with localized cultural references, integrating African-inspired patterns and handcrafted details within a contemporary interior framework. Particular attention was given to material selection, detailing, and execution to ensure consistency with the overall design intent.

The interior is characterized by the use of natural wood finishes and artisanal elements, including a sculptural dining table featuring a hand-shaped base produced through traditional stone-heating techniques. This process creates organically textured surfaces and a distinctive handcrafted finish.

This residential mock-up unit serves as a reference benchmark for the project, demonstrating Able's capability to deliver bespoke interiors that meet the technical and design expectations of both international hospitality brands and private clients.



MARRIOTT UGANDA | KAMPALA (MOCKUP ROOM STANDARD)

- Hotel / Developer: Marriott Uganda – Kampala
- Location: Kampala, Uganda
- Architect / Interior Designer: MMAC Design
- Client / Consultant: Ponsiano Ngabirano
- Project Phase: Construction Phase (Mockup Room Completed)
- Project Type: Hospitality Guestroom Mock-Up (Standard Room)

This project involved the execution of a full-scale hospitality guestroom mock-up developed in collaboration with Marriott Uganda as part of their hotel development in Kampala.

Designed by MMAC Design, the mock-up room was manufactured and installed in full alignment with the architectural concept and Marriott brand standards. All furnishings were fully bespoke, developed to meet the project's functional, aesthetic, and operational requirements.

Able's scope included the coordination, custom manufacturing, and delivery of both fixed and loose furniture elements, ensuring consistency across materials, detailing, and finishes. Particular attention was given to craftsmanship, durability, and compliance with international hospitality performance standards.

Material selection plays a defining role in the room's identity, with natural wood finishes introducing warmth and refinement while complementing the architectural language of the space. A distinctive feature of the room is the custom dining table, featuring a sculptural base shaped entirely by hand using traditional stone-heating techniques, resulting in organically textured surfaces and a refined artisanal finish.

This mock-up room serves as a reference standard for the project, demonstrating Able's capability to deliver high-quality, design-aligned hospitality interiors in close collaboration with international architectural and design teams.

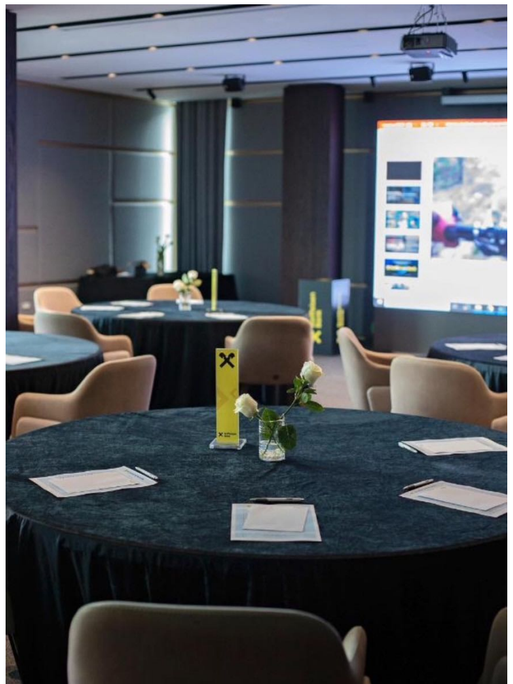
MARITIM COLLECTION MARINA BAY

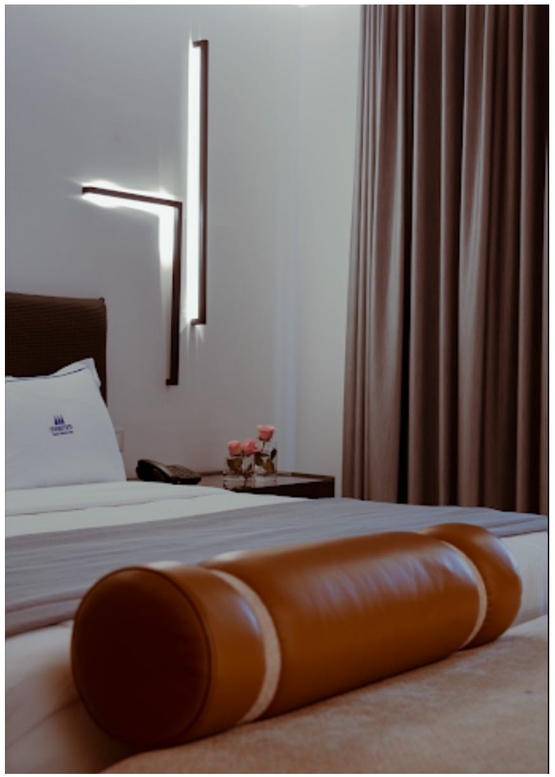
- **Hotel Name**: Maritim Collection – Marina Bay
- **Location**: Vlora, Albania
- **Scope**: Full Hospitality Fit-Out
- **Architect / Designer**: Antonio Chilorcio
- **Project Highlights**:
  - 200 guest rooms fully furnished
  - Public areas, spa, and casino custom designed
  - Bespoke furnishings crafted and installed throughout
- **Execution Notes**: Custom-built and produced by Able in close coordination with the lead architect

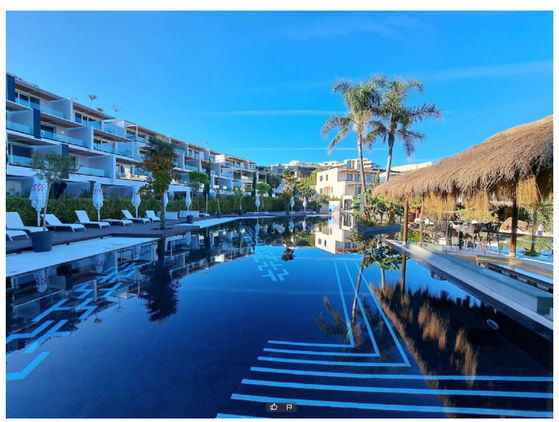
The Maritim Collection – Marina Bay stands as a key reference for contemporary hospitality in southern Albania. Developed in close partnership with architect Antonio Chilorico, the project involved the full furnishing of over 200 rooms, as well as the complete fit-out of all public areas, including a bespoke spa and casino.

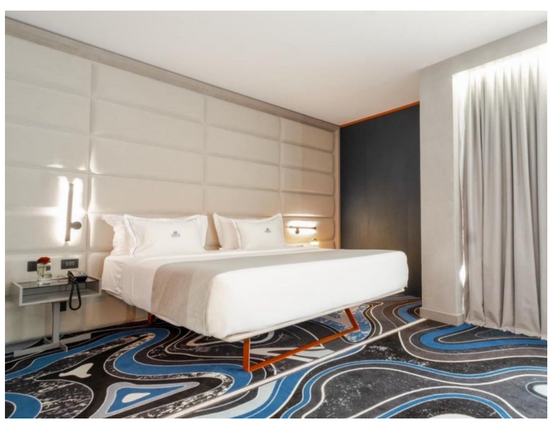
Each room features custom-designed boiseries in leather and MDF, complemented by tailor-made wardrobes, desks, and shelving systems. The design prioritizes harmony between function and aesthetics, creating an atmosphere that feels both refined and inviting.

In the casino and public spaces, carefully selected furniture and social layouts reflect a timeless, international sensibility — blending Mediterranean warmth with architectural precision. Every detail was executed with Able's hallmark dedication to craftsmanship, precision, and design integrity, reaffirming the brand's role as a trusted partner in high-end hospitality development.









GRAN MELIÁ & SAN PIETRO RESIDENCES

Project Name: Gran Meliá & San Pietro Residences **Location**:

- Durrës, Albania
- **Scope**: Full Interior Mock-up – Production & Installation **Total**
- **Rooms**: Reference Scale: Mock-Up Unit Developed for 400 Residential Units

As part of the Gran Meliá & San Pietro Residences development in Durrës, Able was commissioned to execute a full interior mock-up unit, including bespoke furniture production, finishing, and on-site installation.

The scope covered the complete interior fit-out of the mock-up room, with all elements custom-developed to meet luxury residential and hospitality standards. Able managed the production and installation process, ensuring precise execution, material consistency, and alignment with the project's design intent.

Each component was engineered for both durability and refined aesthetics, balancing premium materials with accurate detailing. The mock-up unit served as a reference benchmark for the wider project, informing the coordinated rollout across approximately 400 residential units.

This project demonstrates Able's capability to deliver end-to-end mock-up execution, combining design coordination, production control, and scalable manufacturing while maintaining consistent quality across large residential developments.

M GALLERY HOTEL

- **Hotel Name**: MGallery
- **Location**: South Albania
- **Project Managers**: Balfin Group
- **Scope**: Standard Room – Full Custom Interior & Balcony outdoor Fit-Out

This mock-up standard room for MGallery in South Albania, developed in collaboration with Balfin Group, represents a fully customized hospitality concept tailored to reflect the elegance and design codes of the MGallery brand. Every element — from the architectural features to the furniture — has been conceived, manufactured, and installed by Ablewith precision and attention to detail.

The room combines refined textures, natural tones, and curved sculptural forms, creating a warm and contemporary guest experience. Custom furnishings include a bespoke bed, tailored seating, integrated vanity, and built-in woodwork, all produced specifically for this project. Decorative wall panels and soft lighting further define the ambiance, offering a harmonious interplay between local materiality and international luxury standards.

Able's team handled the entire production and on-site installation, ensuring a seamless transition from design intent to built reality. This mock-up sets the foundation for the next phase of the project, showcasing Able's ability to execute fully personalized interiors aligned with premium hospitality expectations.

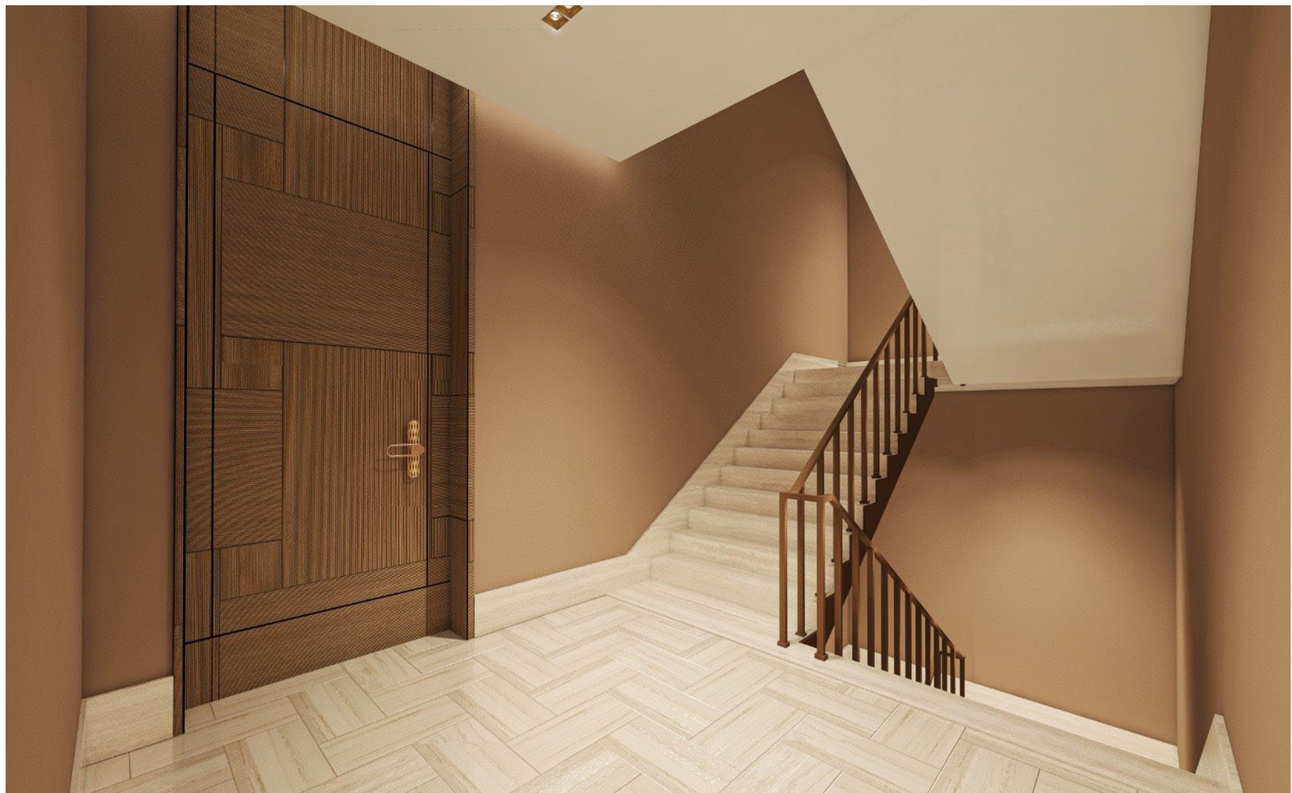
HILTON PRISHTINA

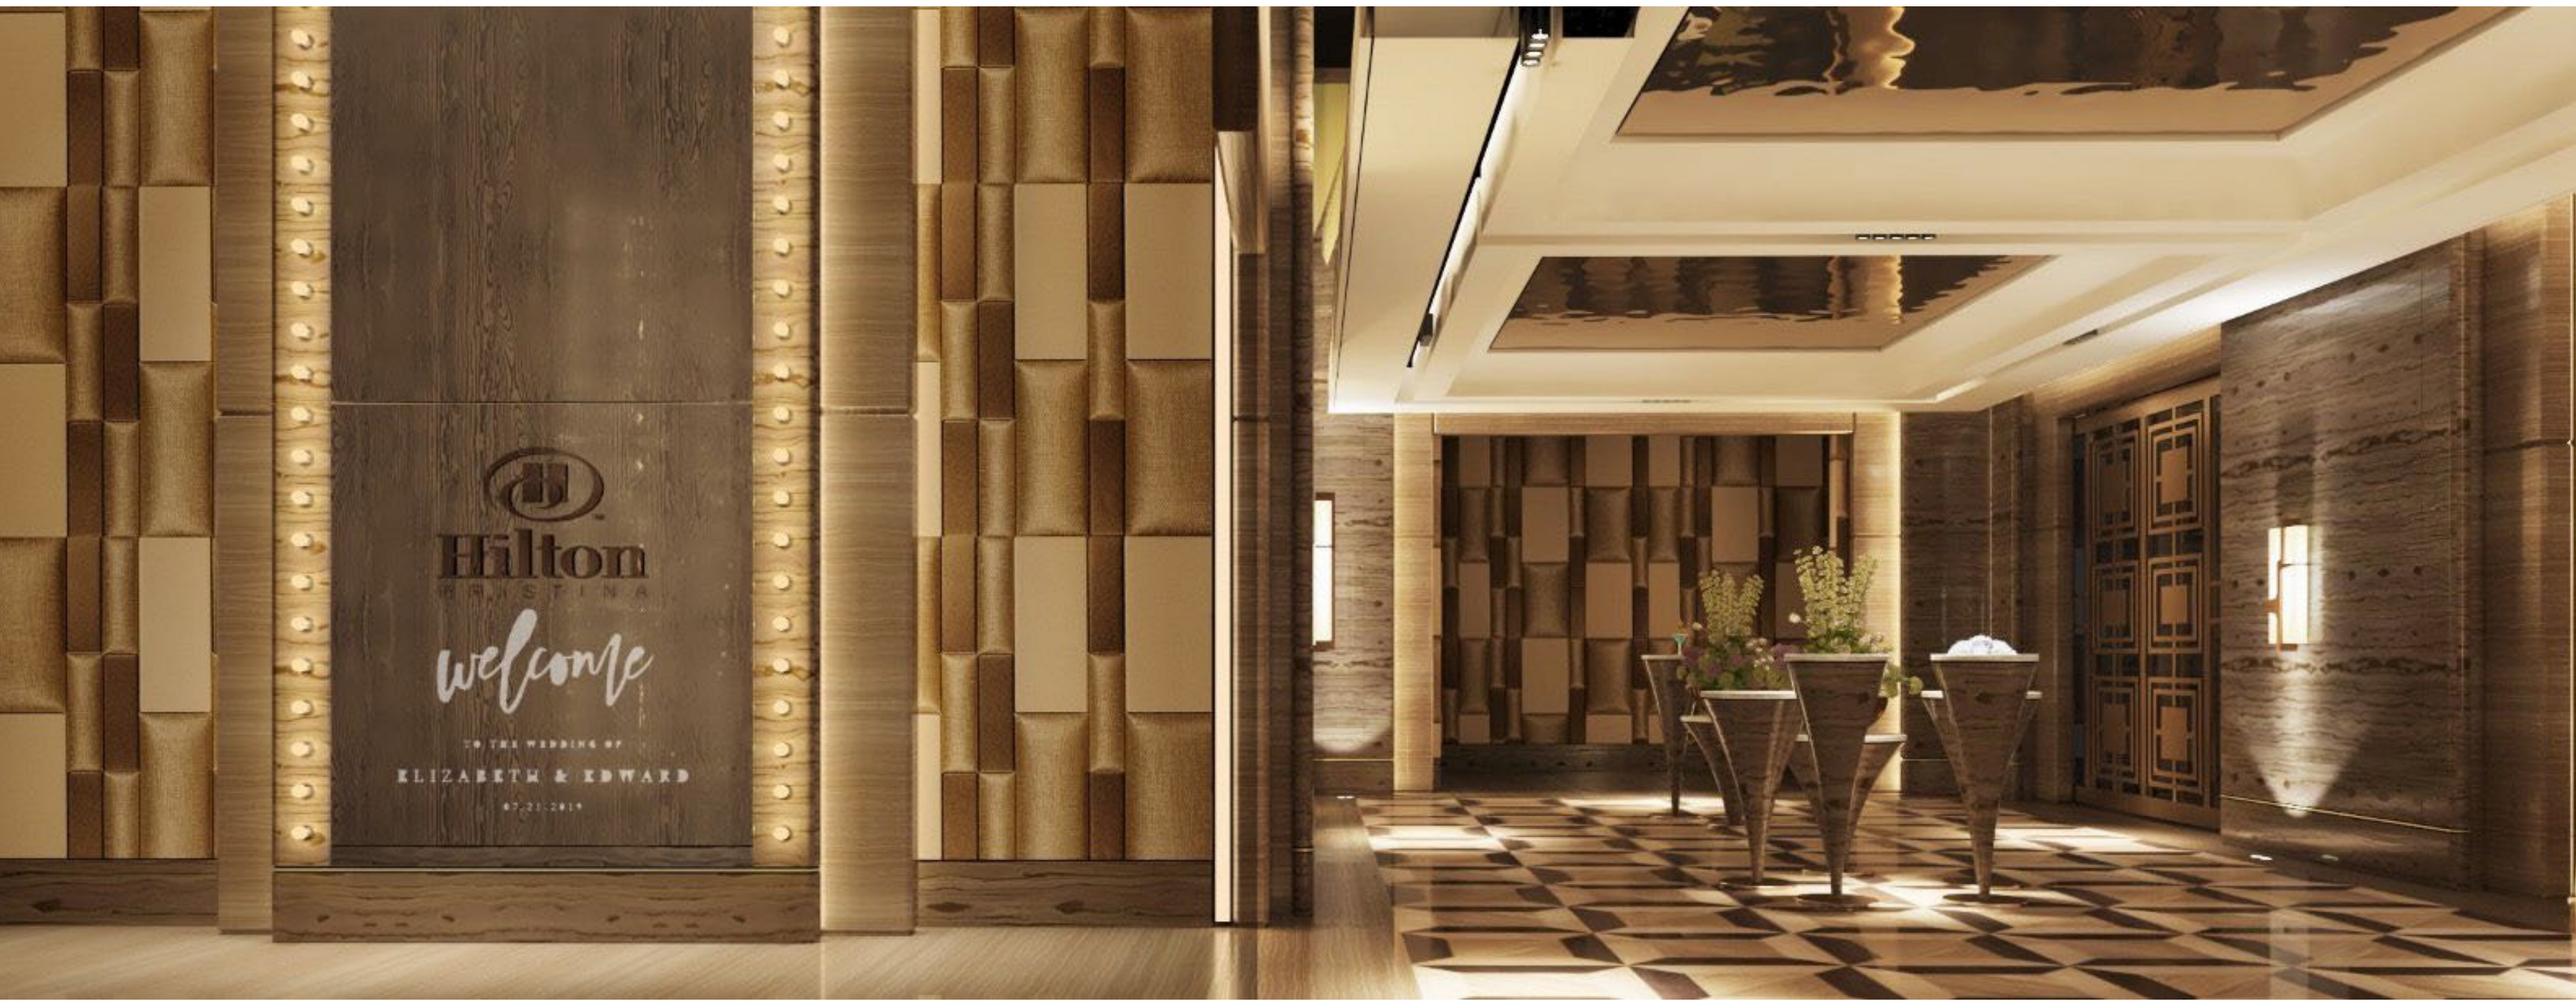
- **Hotel Name**: Hilton
- **Location**: Prishtina, Kosovo
- **Scope**: Hospitality – Public Area Fit-Out
- **Project Areas Covered**: Lobby, Wedding Venues, Bars, Restaurants, Conference Rooms

As part of Hilton's upcoming property in Prishtina, Kosovo, Able has been entrusted with the complete fit-out of all public areas, including the main lobby, restaurants, bar lounges, wedding venues, and conference spaces. All furniture and integrated elements were fully custom-designed, produced, and prepared in-house, closely aligned with the client's operational and design requirements.

Every piece has been developed to reflect Hilton's elevated brand standard, with material and spatial choices made in coordination with the client team. As with all previous hospitality projects, Able followed through with a detail-focused and client-responsive approach, delivering precisely to the project brief.

The entire fit-out process, including production, transport logistics, and on-site installation, is being handled directly by Able's technical team. The project remains on schedule, with visible progress across production phases and on-site preparations, reinforcing Able's reliability in executing high-impact public spaces within premium hospitality environments.





Hilton

ELIZABETH & EDWARD

Z HOTEL

- **Hotel Name**: Z Hotel
- **Location**: London, United Kingdom
- **Scope**: Standard Room – Full Custom Interior Fit-Out
- **Client**: Z Hotel Group (UK-based boutique hotel chain)
- **Collaboration**: In partnership with Maiiko (UK)

As part of our collaboration with Z Hotel, an emerging boutique hospitality group in London, Able—together with UK-based studio Maiiko—delivered the full custom fit-out of their standard guest rooms. Each room was designed and executed in close alignment with the client's aesthetic and functional brief, emphasizing quality, efficiency, and contemporary urban appeal.

The project featured a refined mix of client-specified materials, including Dekton stone surfaces, Alcantara leather upholstery, and a variety of specialty finishes that contributed to the hotel's tactile and elevated interior atmosphere. From integrated furniture systems to custom sleeping and working zones, every element was individually manufactured and installed to meet the brand's compact-luxury standards.

This collaboration exemplifies Able's ability to deliver precise, material-sensitive environments that align with evolving hospitality concepts and boutique operational needs.

MONCAFE HOTEL

- **Project Status**: Completed (2024)
- **Hotel Name**: Moncafe Hotel
- **Location**: Albania
- **Scope**: Hospitality – Full Hotel Fit-Out

Able executed the complete furnishing and fit-out of Moncafe Hotel, an 80-room hospitality destination in Albania. The project covered all key areas including guest rooms, spa, bars and restaurant, reception, and public spaces.

All furniture and installations were fully bespoke—designed, produced, and delivered by Able in alignment with the architect's vision and the client's preferences. From concept through to on-site fit-out and mounting, every detail was carried out by the Able team with precision, customization, and a strong commitment to timely delivery.

This project stands as a showcase of Able's capacity to deliver tailor-made solutions for large-scale hospitality projects, ensuring a seamless balance between functionality, aesthetics, and long-term durability.

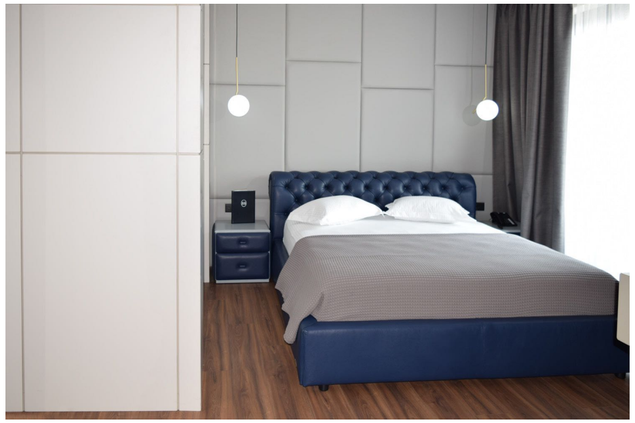
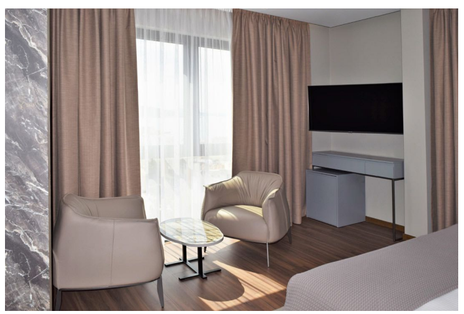
BUTRINTI HOTEL

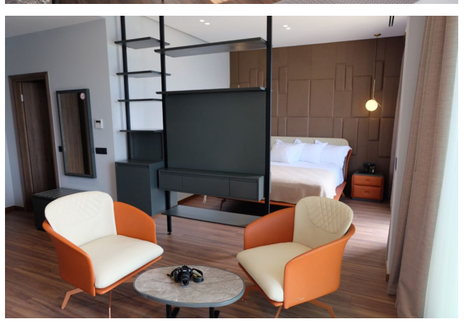
- **Project Status**: Completed (2024)
- **Hotel Name**: Butrinti Hotel
- **Location**: Saranda, Albania
- **Scope**: Hospitality – Full Hotel Renovation & Fit-Out
- **Total Rooms**: 120 (Suites, Supreme Rooms, and Classic Rooms)

Able was appointed as the exclusive partner for the comprehensive renovation and furnishing of Butrinti Hotel, one of Saranda's landmark hospitality destinations. The scope included a complete overhaul of all guest rooms and public areas, ensuring a seamless transformation that respected the architectural vision while enhancing functionality and guest experience.

All items were fully bespoke—designed, manufactured, and installed by Able's in-house team. With precision execution and full control over production, the project reflects our capability to deliver large-scale hospitality transformations on time, while adhering to the highest standards of quality and customization.



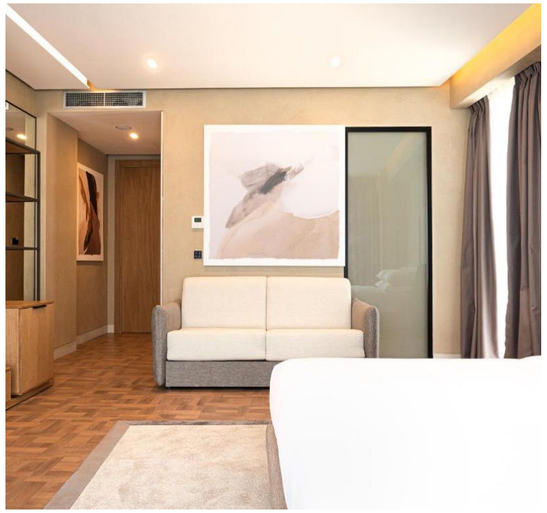


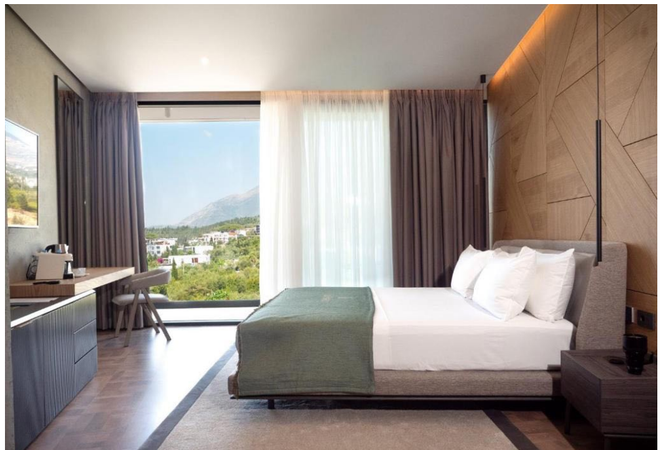


LA BRISA HOTEL

- **Project Status**: Completed (2024)
- **Hotel Name**: La Brisa Hotel
- **Location**: South Albania
- **Scope**: Hospitality – Full Room Fit-Out
- **Total Rooms**: 120
- **Designer**: Able

Able executed the full bespoke design, production, and furnishing of La Brisa Hotel's 120 guest rooms. Working under the direction of project manager Klaudia Lila, the scope involved tailoring every element to align with the client's specifications. Installation and mounting were handled on-site by Able's technical team, ensuring seamless delivery and long-term durability.





YACHT HOTEL

- **Project Status**: Completed (2023)
- **Hotel Name**: Yacht Hotel
- **Location**: South Albania
- **Scope**: Hospitality – Full Hotel Fit-Out
- **Total Rooms**: 80

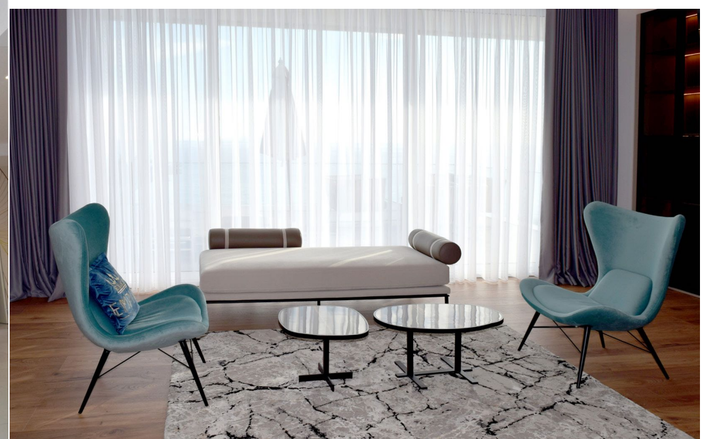
Able completed the full furnishing and fit-out of Yacht Hotel, including guest rooms, public spaces, bars, and restaurants. All works were custom-manufactured and installed by our in-house team, combining bespoke design with efficient execution. The project underscores Able's ability to deliver turnkey hospitality solutions at scale with precision and timely delivery.

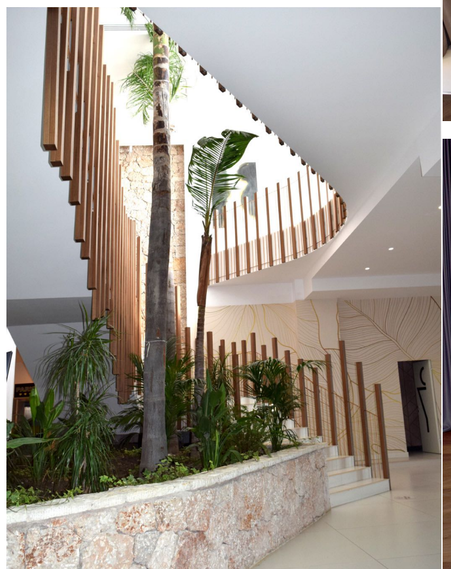
EMPIRE HOTEL

- **Project Status**: Completed (2023) Empire Favorites
- **Hotel Name**: Empire Hotel
- **Location**: South Albania
- **Scope**: Full room and outdoor fit-out plus public areas, bars, and restaurants.
- **Total Rooms**: 100

Able delivered the complete furnishing of guest suites and outdoor spaces for Empire Hotel. The project included pools, restaurants, and patio areas, fully executed in alignment with the client's vision. All installation and mounting were carried out on-site by Able's team, demonstrating our expertise in delivering integrated indoor-outdoor hospitality experiences.

EMPIRE

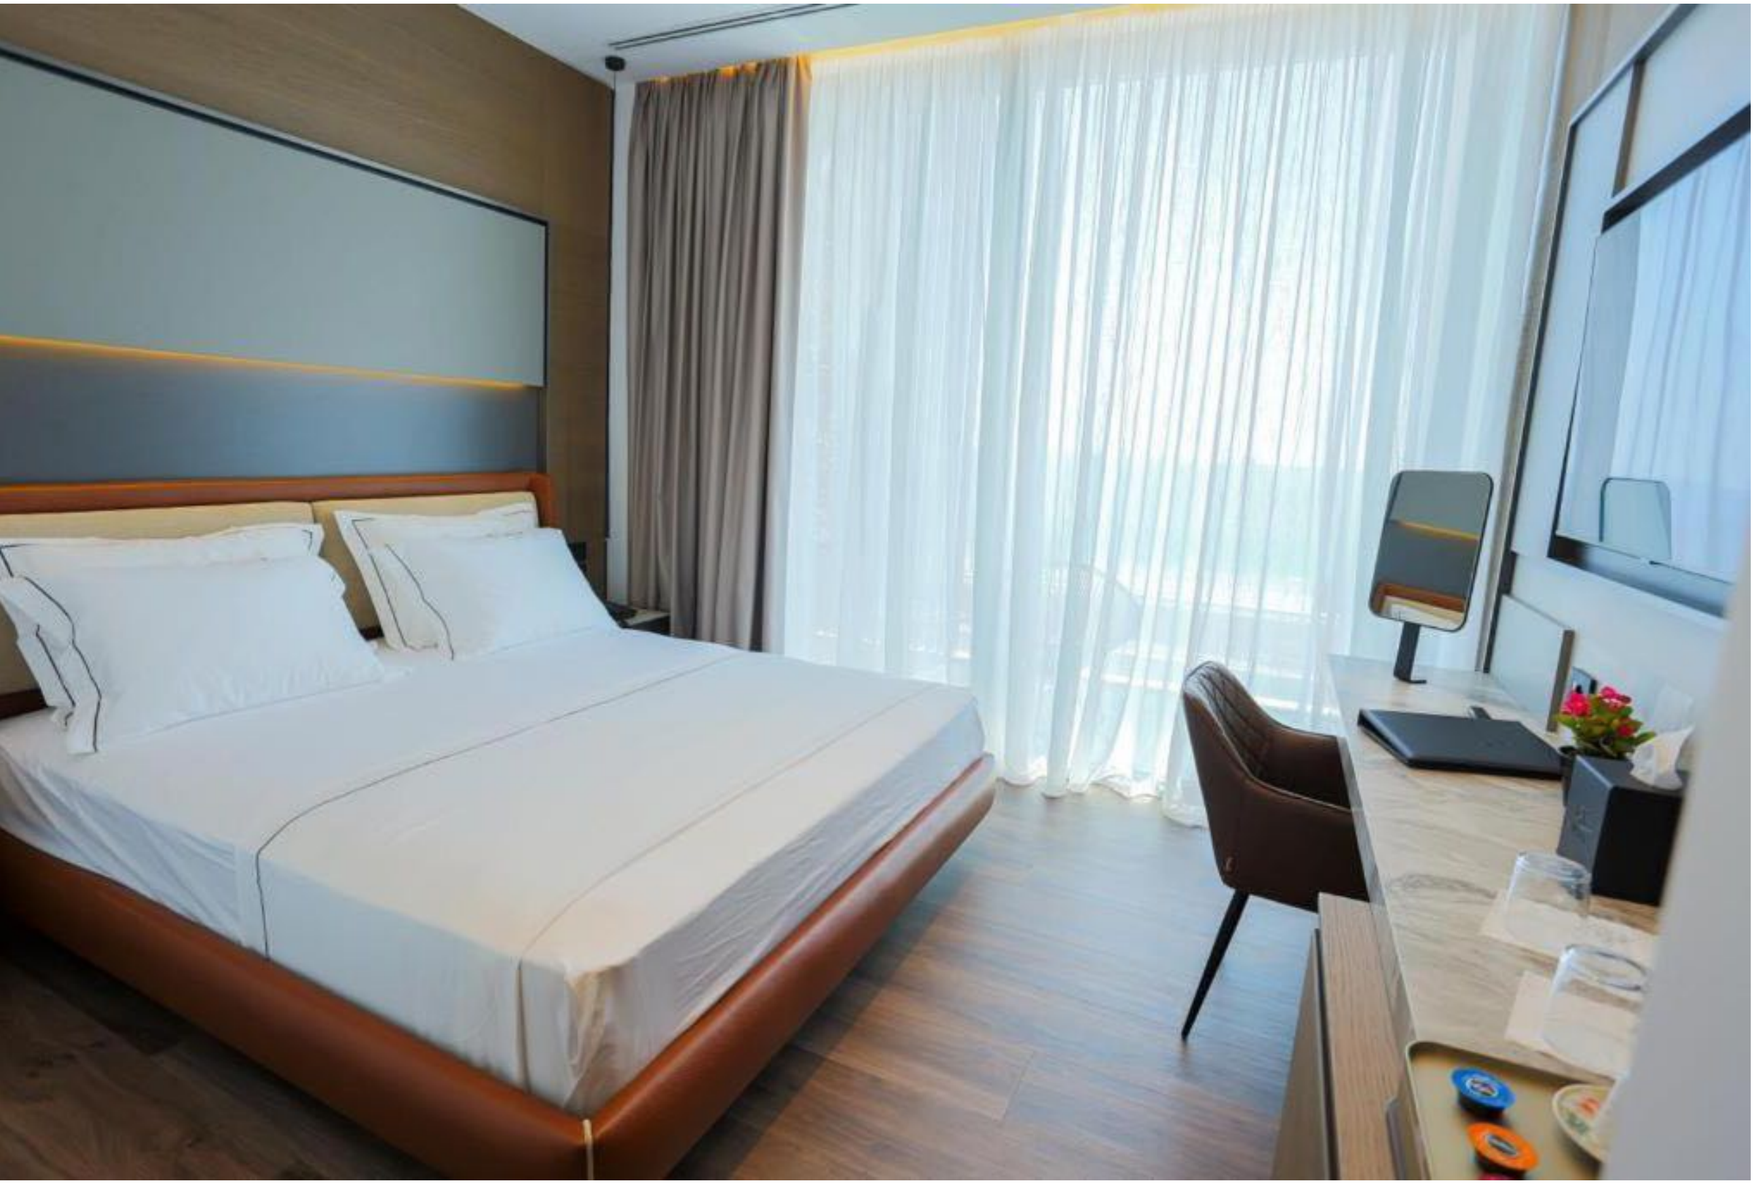


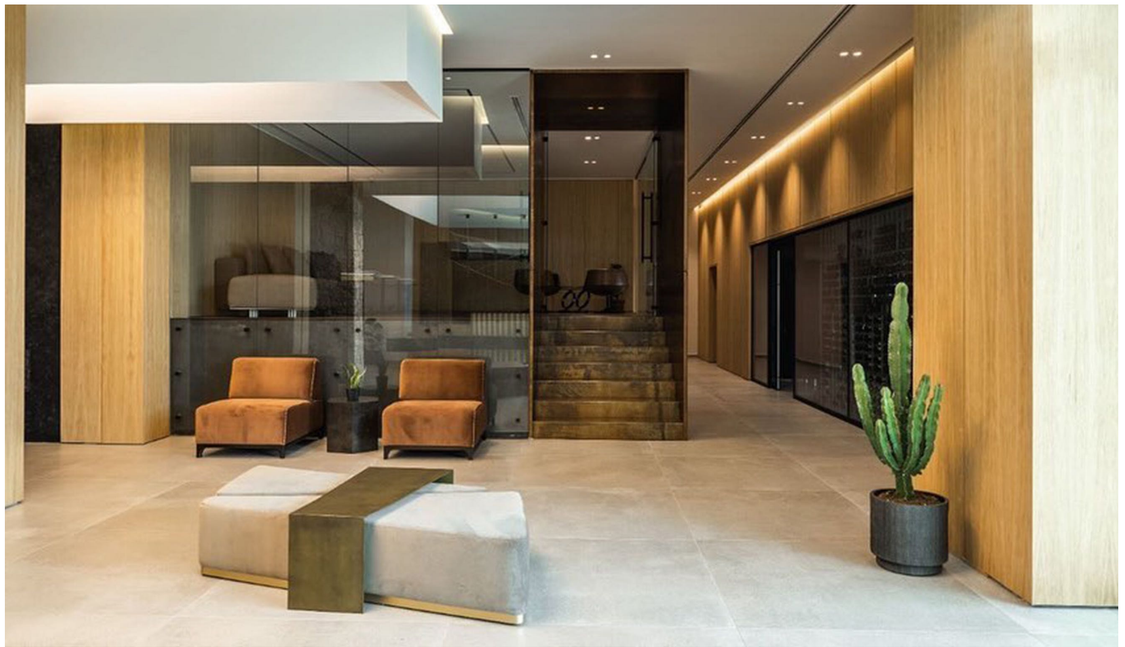


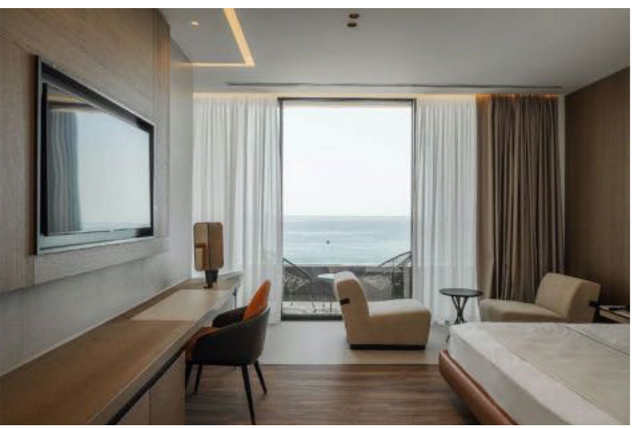
NASSAU HOTEL

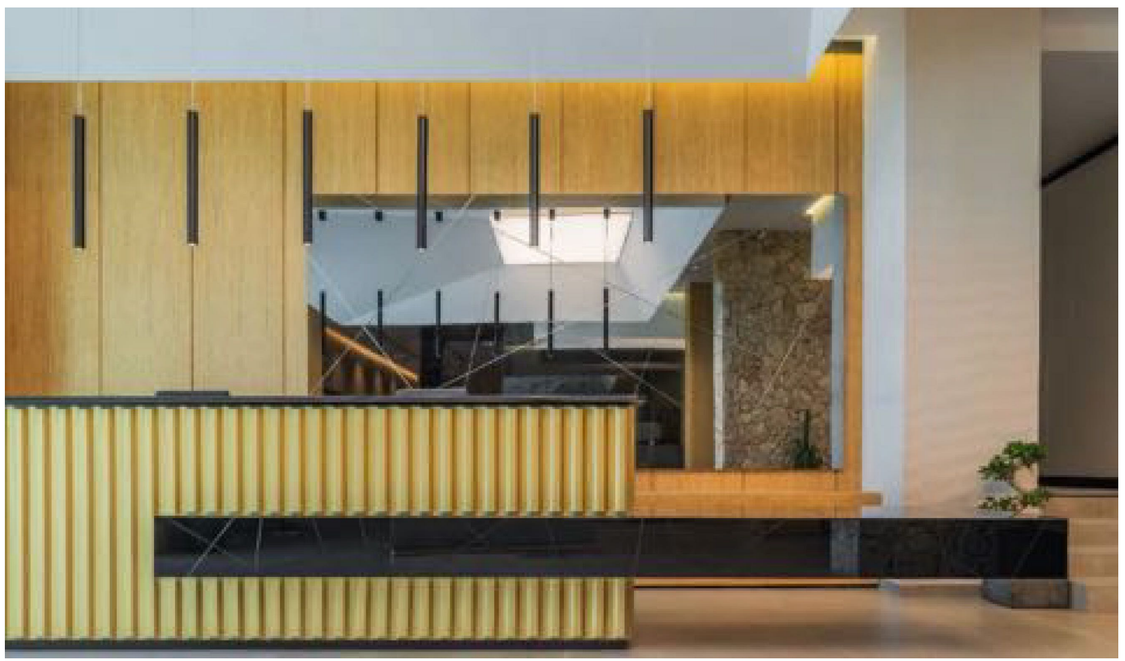
- **Project Status**: Completed (2023)
- **Hotel Name**: Nassau Hotel
- **Location**: South Albania
- **Scope**: Hospitality – Partial Room & Public Area Fit-Out
- **Total Rooms**: 70

Able completed the furnishing of guest rooms and public areas for Nassau Hotel, providing bespoke loose furniture tailored to the property's concept. Despite being a partial scope, the project highlights Able's flexibility in aligning with client needs and delivering consistent quality across hospitality environments.





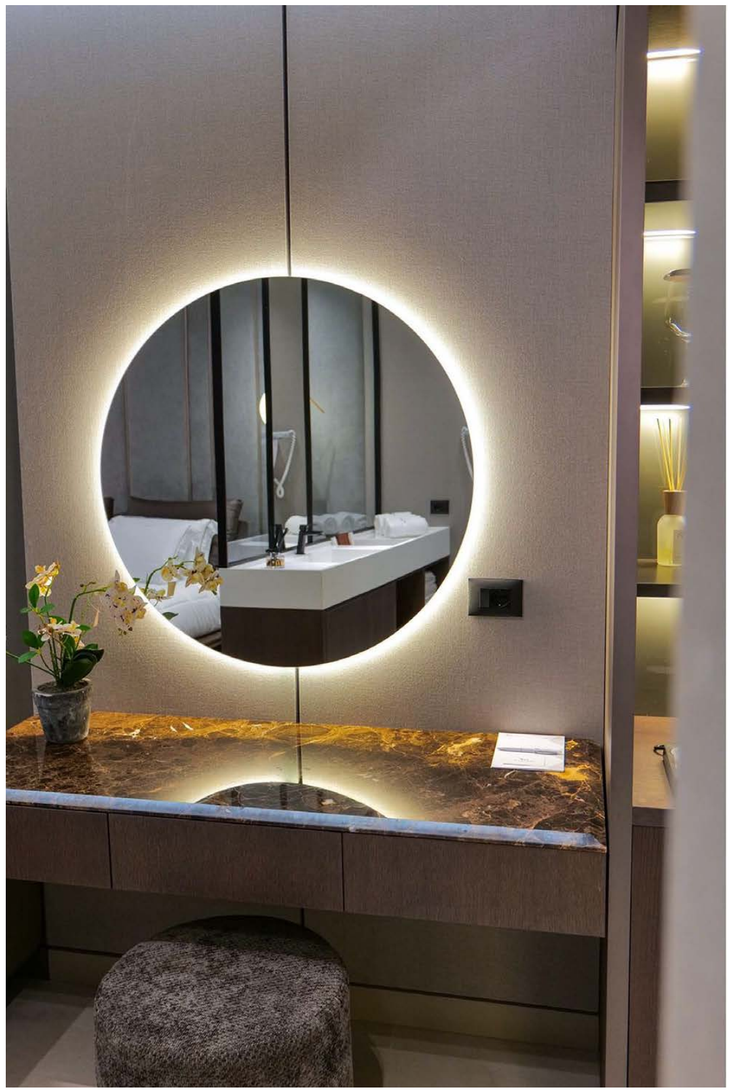


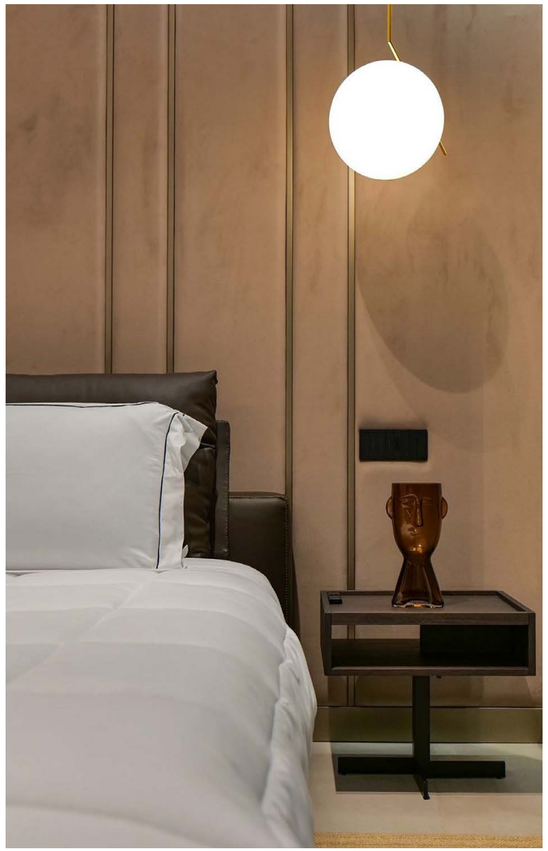


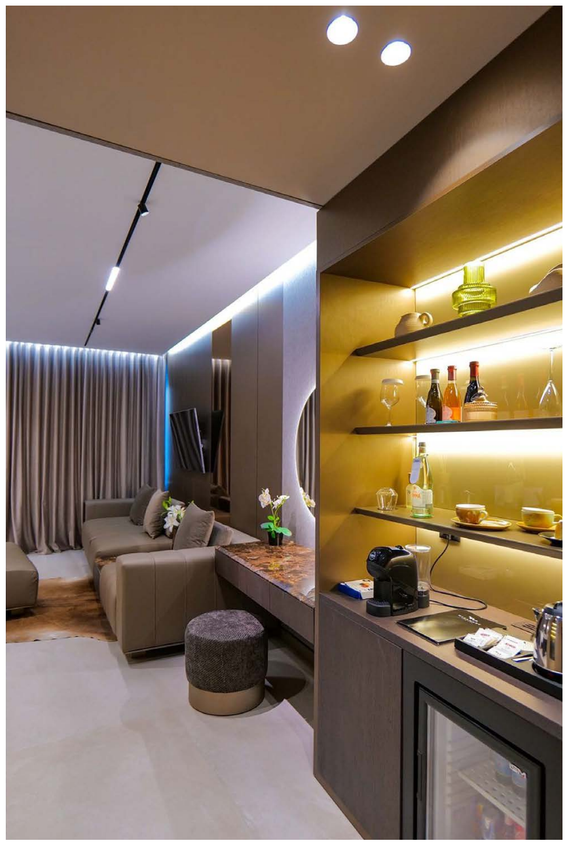
MIAMAR HOTEL

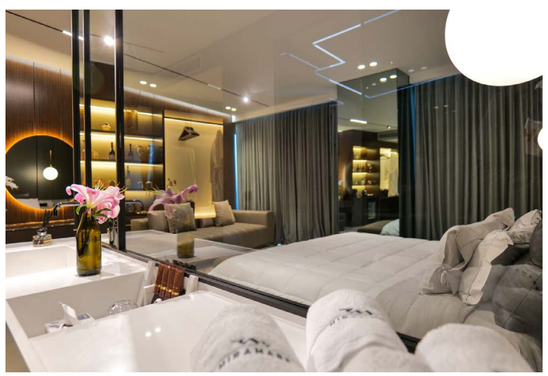
- **Project Status**: Completed (2024)
- **Hotel Name**: Miamar Hotel
- **Location**: South Albania
- **Scope**: Hospitality – Full Room Fit-Out
- **Total Rooms**: 50 Luxury Suites (each with Jacuzzi)
- **Designer**: A&B Design Studio
- **Furnished by**: Able

Able delivered the full fit-out of 50 luxury suites at Miamar Hotel, each designed to reflect the property's premium positioning. Every suite was equipped with private Jacuzzis and finished with high-end, bespoke details. The project was fully managed and executed by Able, ensuring precision and timely completion.







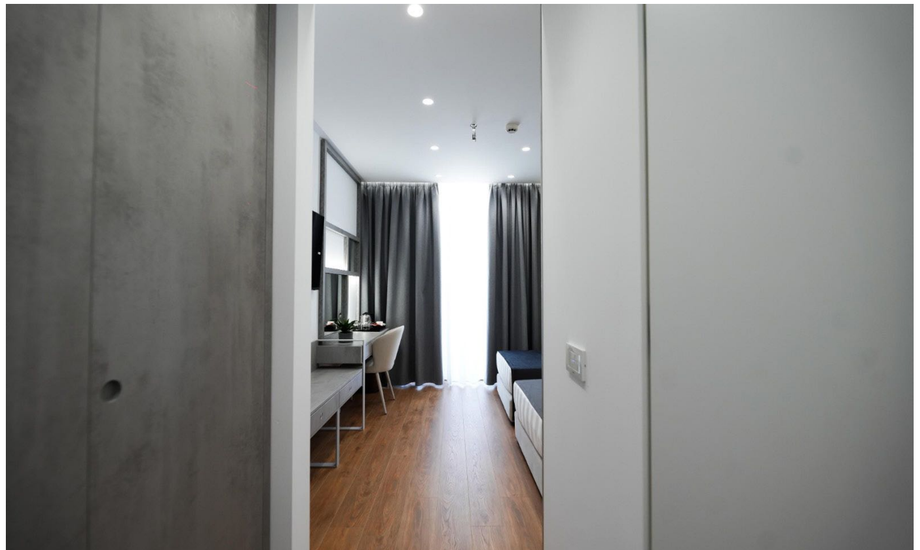


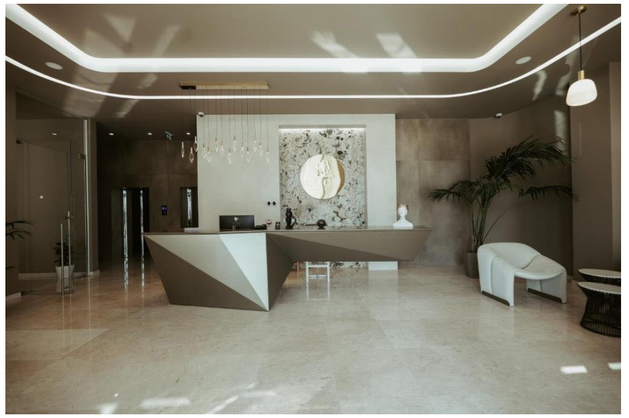
MIRAMARE
BOUTIQUE HOTEL

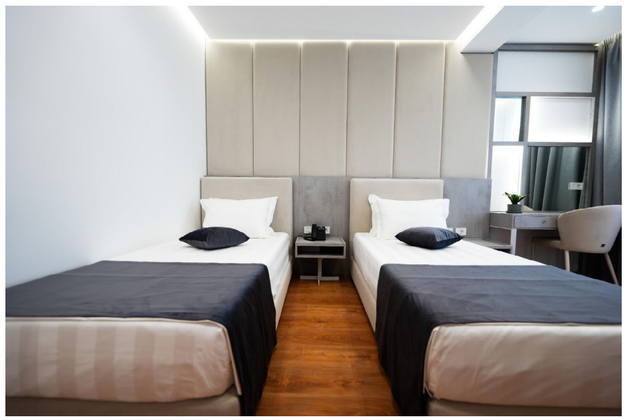
NAOS HOTEL

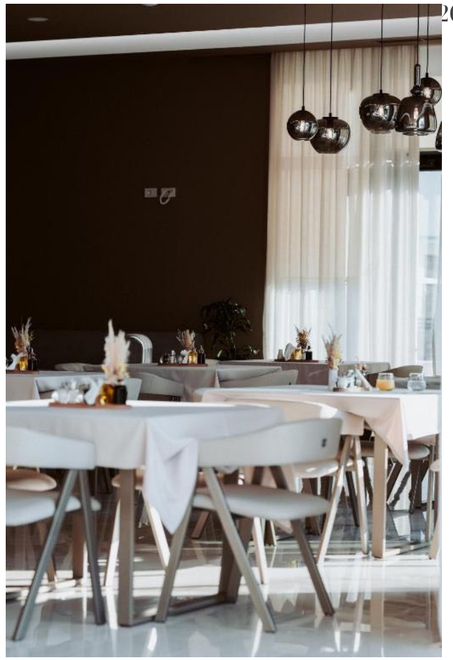
- **Project Status**: Completed
- **Hotel Name**: Naos Hotel
- **Location**: South Albania
- **Scope**: Hospitality – Full Room & Public Area Fit-Out
- **Total Rooms**: 120

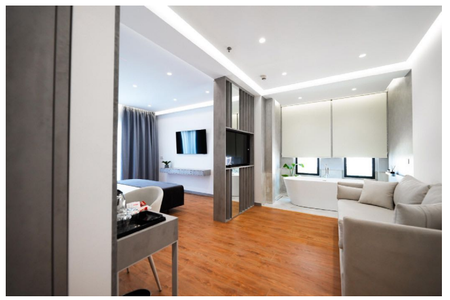
Able furnished and fitted out all guest rooms, bars, and restaurant areas at Naos Hotel. Every element was custom-produced and installed by Able's team, ensuring consistency with the client's design intent. This project exemplifies our ability to execute hospitality projects of significant scale with precision and efficiency.











GRAND VM HOTEL

- **Project Status**: Completed
- **Project Name**: Grand VM Hotel
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Durrës, Albania
- **Total Rooms**: 140

Able Studio was entrusted with the full design and furnishing of the Grand VM Hotel in Durrës, Albania. The project encompassed 140 guest rooms, expansive public areas, and dining spaces, all conceived and executed to reflect a contemporary coastal identity.

The interiors balance refined modern architecture with bespoke Able furniture, custom finishes, and thoughtful layouts that enhance both functionality and guest comfort. From guestrooms to lounge areas, every detail was carefully curated to align with the hotel's vision of understated luxury.

With panoramic views over the Adriatic Sea and a setting designed for both relaxation and social gathering, the Grand VM Hotel highlights Able's ability to deliver turnkey hospitality environments that seamlessly merge design, comfort, and durability.

HOTEL KAISER

- **Project Status**: Completed 2025
- **Project Name**: Hotel Kaiser
- **Location**: South Albania
- **Scope**: Full Design & Bespoke Production – Reception, Bar, Restaurant, Rooms, Outdoor
- **Total Rooms**: 120 (Boutique Hotel)

Hotel Kaiser embodies a warm and intimate boutique atmosphere defined by natural textures, soft tonal layering and architectural calm. The interiors balance modern lines with organic materials, creating a refined visual language using limestone tones, oak woods and structured fabrics. The contrast between sculptural elements and minimal silhouettes adds depth while keeping the overall aesthetic sophisticated and timeless.

Able developed the complete furnishing and interior production for Hotel Kaiser, covering all key hospitality areas including reception, lounge, bar, restaurant, guestrooms, and outdoor terraces. Every element was custom-produced in-house, from integrated wall paneling and bespoke cabinetry to upholstered seating, bedroom compositions and dining solutions. The project was engineered for both durability and visual continuity, ensuring a consistent material identity and design flow throughout the property. Hotel Kaiser stands as a showcase of Able's capability to deliver fully coordinated hospitality environments with precision craftsmanship and tailored detailing at scale.

LUXURY PENTHOUSE RESIDENCE

- **Project Status**: Completed
- **Project Name**: Luxury Penthouse Residence
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Vlore, Albania

Overlooking the Adriatic Sea, this exclusive penthouse designed by Able Studio blends contemporary elegance with natural serenity. Developed on a single level, the residence combines sleek architecture with warm wood, soft textures, and organic details to create a seamless connection between interior spaces and the surrounding coastal landscape.

Every element of the penthouse was designed and furnished by Able, from sculptural bespoke wardrobe units and custom Corian wall art to integrated dining and living solutions. The expansive use of floor-to-ceiling windows floods the interiors with natural light, highlighting a curated mix of modern and classic design features.

With each room tailored to the client's lifestyle, the project exemplifies Able's ability to deliver high-end residential environments that balance refined aesthetics, comfort, and functionality—transforming the penthouse into a serene, luxury retreat.

NETFLIX

TIMBERLINE VILLA

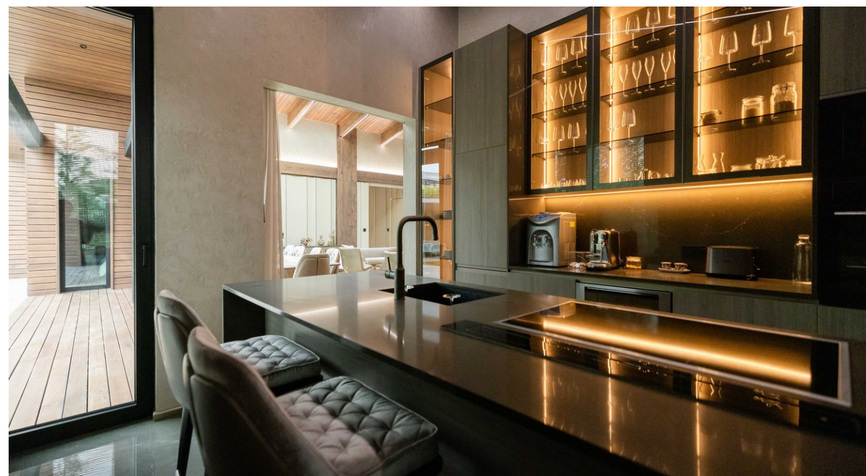
- **Project Status**: Completed
- **Project Name**: Timberline Villa
- **Location**: Tirana, Albania
- **Scope**: Architecture, Structure & Bespoke Furnishing
- **Designed & Produced by**: Entirely Able

A residence conceived as a single, continuous idea.

Designed and produced entirely by Able, this villa was taken from exterior to interior as one undivided commission, with architecture, structure, and bespoke furnishing drawn and made under a single roof.

Every element was created for this home alone, from the facade and the joinery to the surfaces and the custom upholstery, down to the way each room opens into the next. Warm timber, natural stone, and softly tailored forms give the interior its quiet, alpine-contemporary character.

Nothing was sourced. Everything was made. End to end, exterior to interior, the residence stands as a complete expression of Able's ability to conceive, build, and furnish a home as one.



RIVIERA SUMMER PENTHOUSE

- **Project Status**: Completed
- **Project Name**: Riviera Summer Penthouse
- **Designed by**: Able Design Team
- **Client / Consultant**: Private Client
- **Furnished by**: Entirely Able products
- **Location**: South Albania

Envisioned as a contemporary coastal retreat, this private summer penthouse in South Albania was designed and executed entirely by Able, where architecture, interiors, and bespoke furnishings exist as one.

Able was responsible for the full scope of work, from design and coordination to bespoke manufacturing and the delivery of both fixed and loose furniture. Every element, from the custom upholstery and cabinetry to the material selections and spatial flow, was created specifically for this residence.

A restrained palette of natural, tactile materials balances refined minimalism with the warmth of its coastal setting, with particular attention given to lighting, layout, and finish consistency so the space reflects the way the client actually lives in it.

Completed to the expectations of a discerning private client, the residence stands as a reference benchmark for Able's ability to deliver fully bespoke private interiors, from architectural concept through to final furnishing.

ROLLING HILLS VILLA

- **Location**: Tirana, Albania
- **Scope**: Residential – Full Interior Fit-Out
- **Designer & Project Manager**: Studio Fabrika
- **Status**: Completed
- **Year**: 2025
- **Execution Notes**:

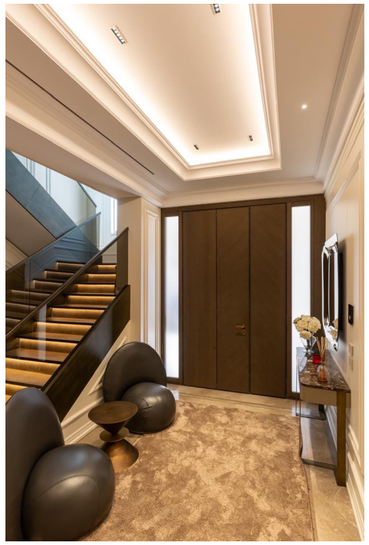
Rolling Hills Villa sits perched quietly in the hills above Tirana—a residence where design intention meets effortless luxury. Conceived by Studio Fabrika and fully furnished by Able Bemodern, the home unfolds as a quiet sanctuary, where each space is a dialogue between light, form, and material.

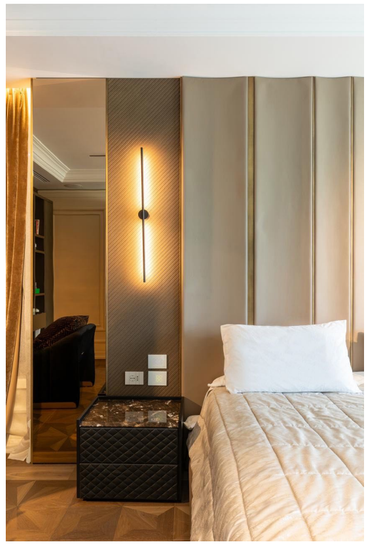
The villa opens with a fluid, light-filled living area wrapped in earthy textures and subdued tones. Neutral palettes meet warm tactile fabrics and sculptural silhouettes, creating an atmosphere of timeless calm. A striking Mario Romano wall sculpture anchors the aesthetic—a custom piece in Corian that shifts with the light throughout the day.

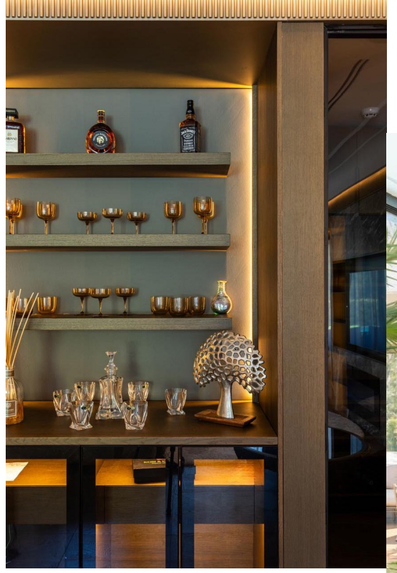
In the dining space, the clean geometry of the Formula table and Isla chairs sets the tone for elegant gatherings, while nearby, the lounge is defined by Amphora and Yara armchairs, layered rugs, and the glint of Sparks and Aura coffee tables. The bar nook is punctuated by Teatro stools, adding a touch of contemporary poise.

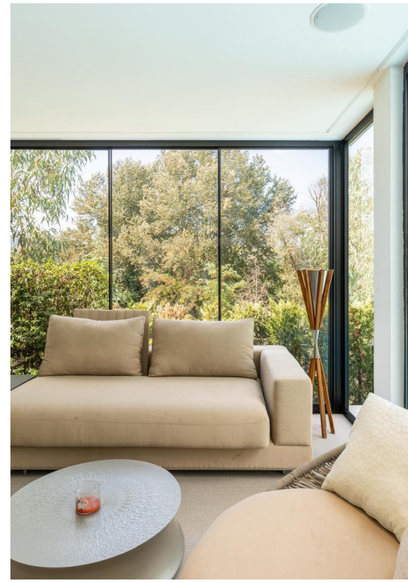
The custom-designed kitchen and tailored Gloria sideboard echo the villa's commitment to functional luxury. Every corner—down to the Catch armchairs and Cosmos table in the hallway—has been curated to hold meaning, warmth, and usability.

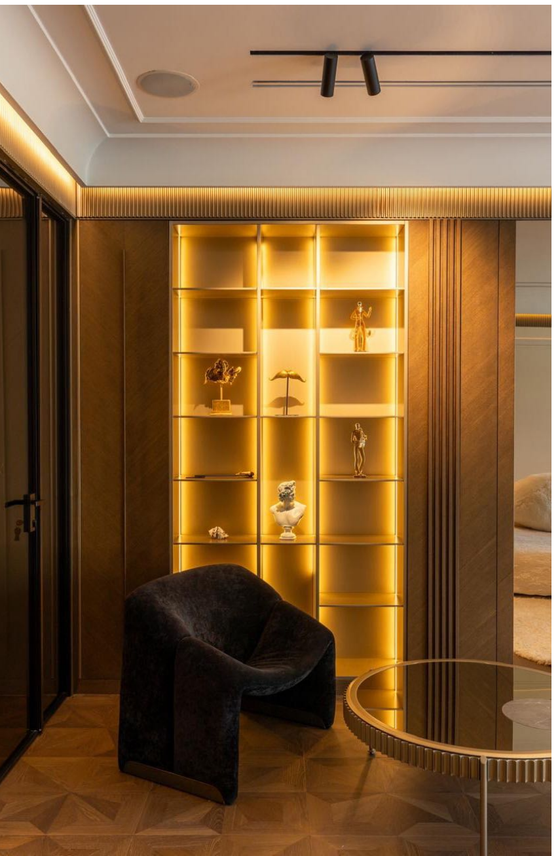
The second living room invites deeper relaxation, centered around a sleek fireplace, while the outdoor area is nothing short of an escape. The Aria sofa and Emma chairs create soft lines against natural surroundings, and the Jupiter garden bed invites full immersion in the peaceful setting.

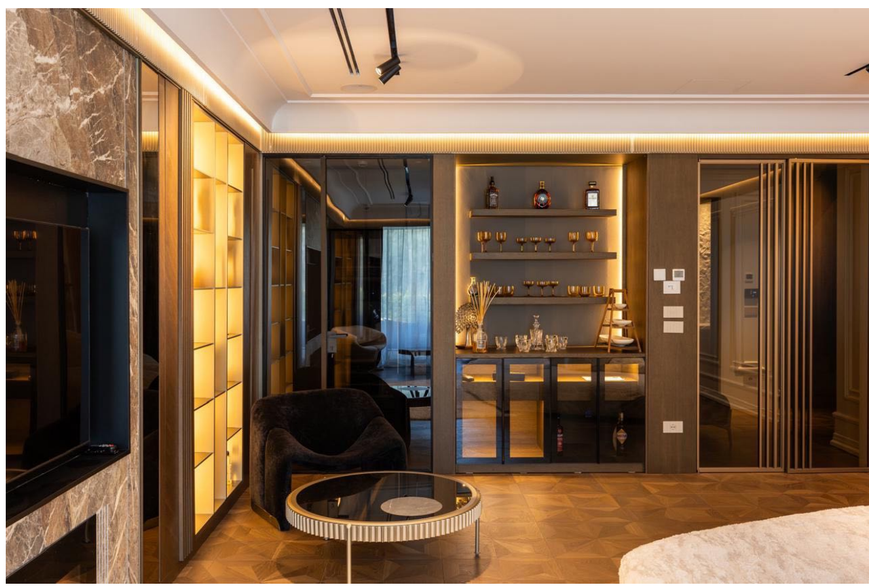








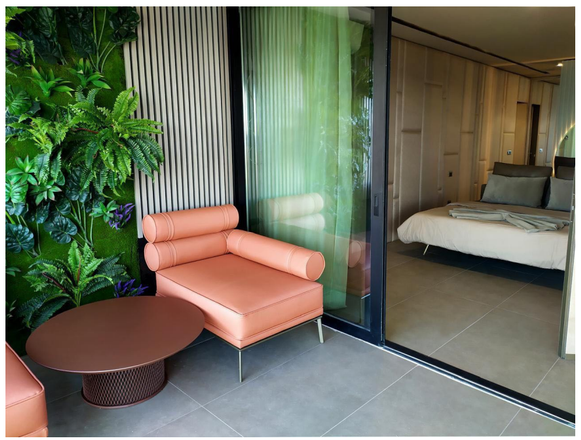


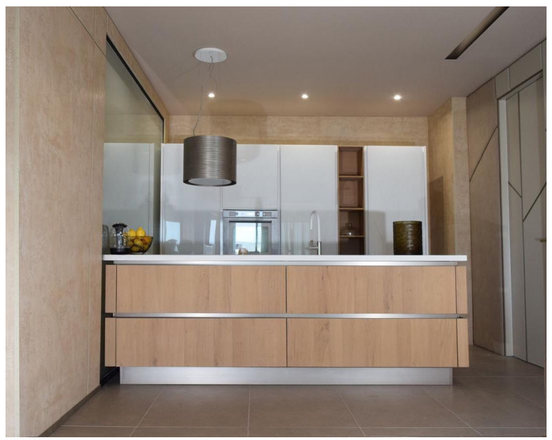


PRIVATE BEACH VILLA

- **Project Status**: Completed (2024)
- **Project Name**: Private Beach Villa – South Albania
- **Location**: South Albania Coastal Region
- **Scope**: Residential – Full Bespoke Design, Furnishing & Fit-Out
- **Architect / Project Manager**: Able

This villa, situated along Albania's coastline, was fully designed, furnished, and fitted out by Able. Custom elements were created to reflect a relaxed yet refined seaside lifestyle, with a complete turnkey delivery by our team.





LUXURY RESIDENTIAL UNITS – MILAN & IBIZA

- **Project Status**: Completed
- **Project Name**: Luxury Residential Units – Milan & Ibiza
- **Location**: Milan, Italy & Ibiza, Spain
- **Scope**: Residential – Full Interior Fit-Out
- **Architect / Project Manager**: Roberto Felicetti

Able executed the full bespoke furnishing and fit-out of multiple luxury residences across Milan and Ibiza. Each unit was tailored to meet high-end residential standards, balancing comfort, luxury, and architectural precision.

PRIVATE VILLA BRUSH HILL

- **Project Status**: Completed
- **Project Name**: Private Villa – Brush Hill
- **Location**: Massachusetts, USA
- **Scope**: Residential – Full Bespoke Furnishing & On-Site Installation
- **Architect / Project Manager**: KNK Studios

URBAN OASIS TIRANA

- **Project Status**: Completed
- **Project Name**: Urban Oasis Tirana
- **Designed by**: White Architects
- **Furnished by**: Able – Custom-crafted furniture & bespoke fit-out
- **Location**: Tirana, Albania
- **Scope**: Residential – Full Bespoke Interior Furnishing

Urban Oasis Tirana, designed by White Architects and furnished by Able, is a statement of bespoke sophistication and modern living. The interiors blend Italian leather upholstery, solid wood cabinetry, and exclusive upholstery pieces to create a residential environment that balances elegance with function.

Every element was tailored to the client's vision, from sectional seating and coffee tables in the living area to bespoke cabinetry and refined bedroom ensembles. By combining European craftsmanship with premium materials, Able delivered a residence that feels both deeply personal and timeless.

This project exemplifies Able's ability to curate interiors that elevate contemporary residential design, transforming spaces into unique, high-end retreats.

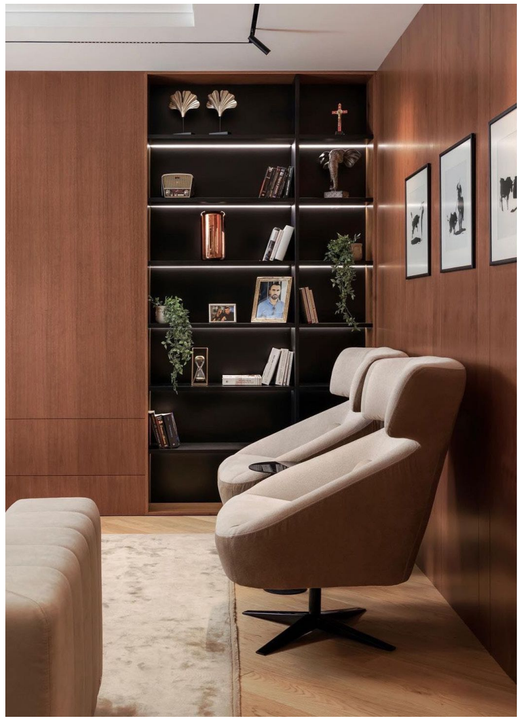
SKYLINE RETREAT PENTHOUSE

- **Project Status**: Completed
- **Project Name**: Skyline Retreat Penthouse
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Albania
- **Scope**: Residential – Full Bespoke Interior Furnishing

Skyline Retreat Penthouse embodies the warmth of handmade furniture and the sophistication of bespoke interior design. Every detail has been carefully considered to create a refined yet welcoming environment, showcasing Able's hallmark of craftsmanship and customization.

The interiors feature plush upholstered seating, streamlined dining solutions, and custom cabinetry that combine functionality with elegance. A marble-accented kitchen enhances spaciousness and light, paired with bespoke dining furniture to establish a seamless flow between spaces. Living areas integrate tailored sofas, refined armchairs, and bespoke tables, resulting in a harmonious mix of comfort and sophistication.

This project reflects Able's ability to design and furnish contemporary residences that balance form and function—creating timeless, inviting spaces that resonate with both modern luxury and personal charm.



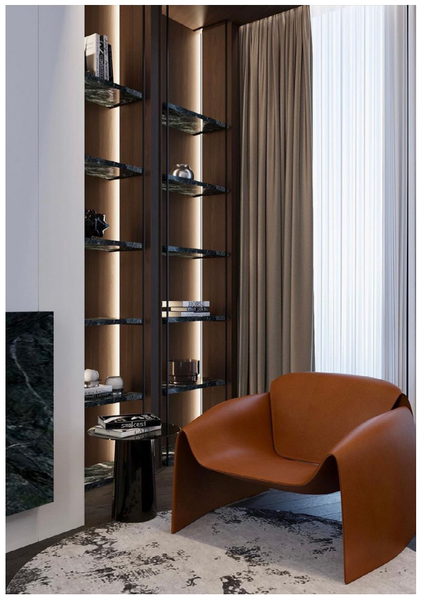
AREAL ABODE

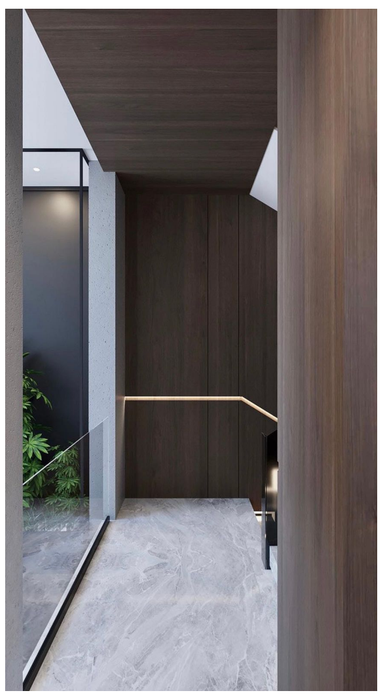
- **Project Status**: Completed
- **Project Name**: Areal Abode
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Tirana, Albania
- **Scope**: Residential – Full Bespoke Interior Furnishing

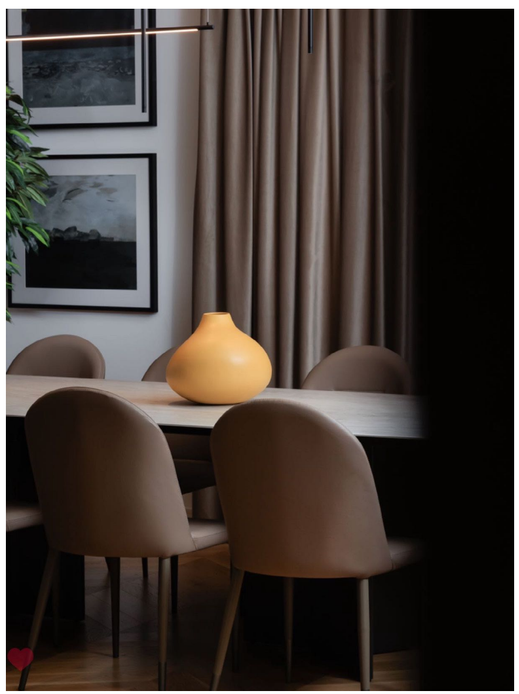
Areal Abode in Tirana offers a refined home experience where handmade furniture and tailored interiors define the atmosphere. Every detail reflects Able's hallmark craftsmanship, creating a residence that balances modern sophistication with everyday comfort.

The interiors combine sleek cabinetry, bespoke seating, and custom dining solutions to establish a cohesive and upscale ambiance. Neutral tones and clean lines emphasize simplicity, while plush textures and metallic accents introduce warmth and luxury. Floor-to-ceiling windows flood the home with natural light, enhancing the airy aesthetic and highlighting the refined details throughout.

This project illustrates Able's ability to design and furnish contemporary residential spaces that are both stylish and serene—offering an inviting environment that epitomizes timeless elegance.







AERAL OASIS

- **Project Status**: Completed
- **Project Name**: Aeral Oasis
- **Designed by**: MB Architecture Studio
- **Furnished by**: Able – Custom luxury furniture
- **Location**: South Albania
- **Scope**: Residential – Full Bespoke Interior Furnishing

Aeral Oasis in South Albania is a refined example of bespoke luxury, where Able's custom furniture elevates modern interiors with high-end craftsmanship and premium materials. Designed in collaboration with MB Architecture Studio, the residence embodies an industrial yet elegant aesthetic.

The interiors feature expansive seating systems, bespoke coffee and dining solutions, and customized shelving with integrated lighting. Carefully balanced between muted tones, matte finishes, and geometric lighting, the design creates a cohesive, contemporary environment. Bathrooms and wardrobes were tailored with fully bespoke solutions, ensuring both function and sophistication.

This project highlights Able's expertise in crafting residential interiors that merge comfort with cutting-edge style—delivering a serene, urban-chic retreat in the heart of South Albania.

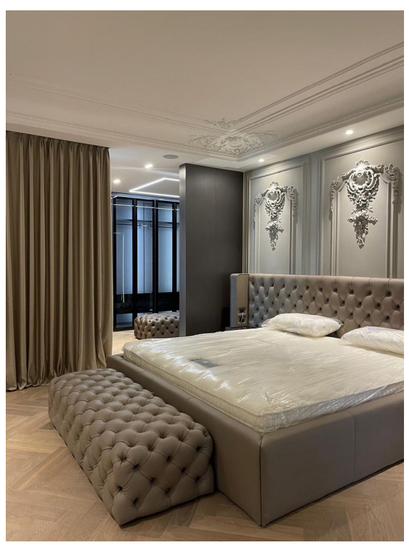
VISTA APARTMENT

- **Project Status**: Completed
- **Project Name**: Vista Apartment
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Albania
- **Scope**: Residential – Full Bespoke Interior Furnishing

Vista Apartment embodies modern luxury through Able's custom furniture and tailored interior solutions, creating a refined living experience. Each element was crafted from premium materials to ensure both style and comfort, resulting in an atmosphere of understated elegance.

The interiors feature bespoke seating systems, custom dining solutions, and fully integrated wardrobe units that harmonize functionality with design. Large windows flood the apartment with natural light, while metallic accents, soft textiles, and herringbone-patterned flooring introduce warmth and texture throughout the spaces.

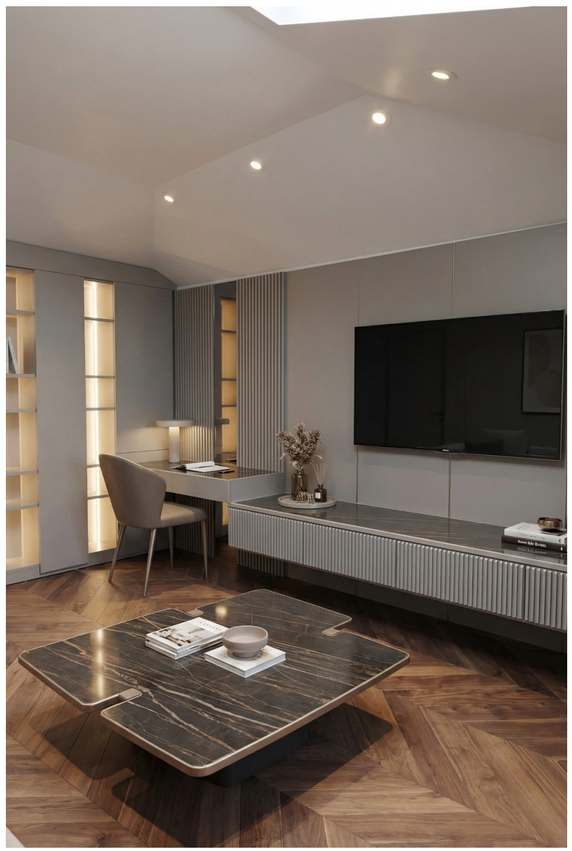
This project illustrates Able's expertise in designing residential environments that balance sophistication with livability—delivering a contemporary, inviting home that epitomizes modern luxury in Albania.

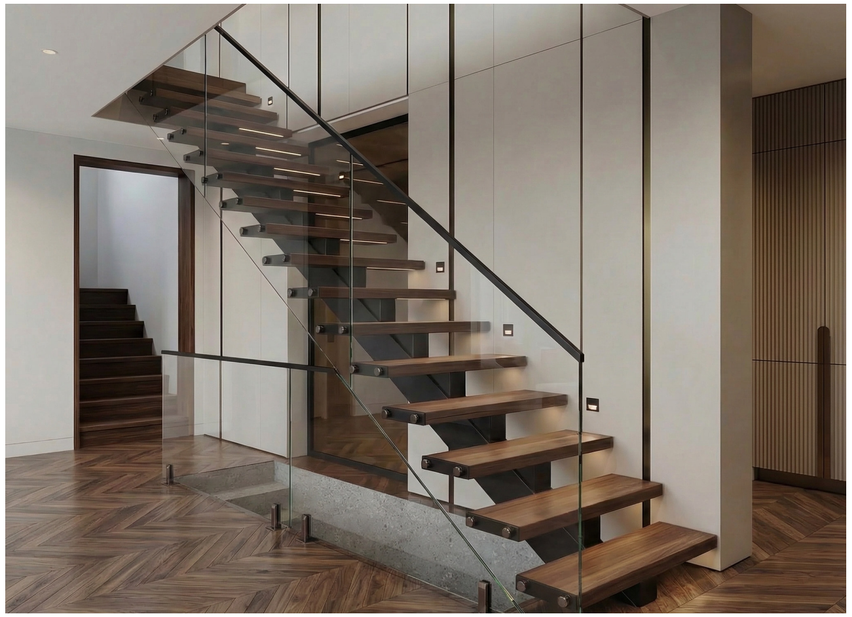


PRIVATE VILLA – KOSOVO

- **Project Status**: Recently Completed (April 2025)
- **Project Name**: Private Villa – Kosovo
- **Location**: Kosovo
- **Scope**: Residential – Full Bespoke Design, Furnishing & Fit-Out
- **Architect / Project Manager**: Able

Able fully designed, produced, and installed all elements of this villa, delivering a turnkey residential solution. Despite professional photography pending, the villa showcases Able's capacity for full-service execution, from concept design to installation.





BEACON HILL RESIDENCE

- **Project Status**: Completed
- **Project Name**: Beacon Hill Residence
- **Location**: Boston, USA
- **Scope**: Residential – Bespoke Furnishing & Upholstery
- **Architect / Project Manager**: Steven Favreau

Able collaborated with interior designer Steven Favreau to furnish this luxury apartment in Boston. The project involved creating custom-upholstered furniture pieces tailored to the unique character of the space. This residence exemplifies Able's attention to detail and craftsmanship in high-end residential design.

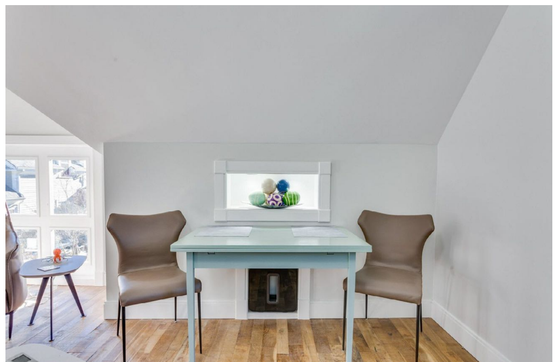
JAMAICA PLAIN UNIT

- **Project Status**: Completed
- **Project Name**: Jamaica Plain Unit
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Boston, USA
- **Scope**: Residential – Real Estate Staging & Full Bespoke Furnishing

The Jamaica Plain unit is a vibrant showcase of modern elegance, staged and furnished by Able to highlight the possibilities of contemporary living. The interiors embrace bold colors, sleek forms, and open layouts, making the home both visually captivating and inviting.

The living area is defined by bespoke seating solutions that combine comfort with refined design, anchored by carefully curated centerpiece furnishings. The bedroom offers a serene yet stylish retreat, blending tailored furniture with functional accent pieces.

This project demonstrates Able's ability to craft interiors that inspire through staging, turning real estate spaces into aspirational homes that reflect sophistication, creativity, and modern lifestyle values.



BOSTON WATERFRONT UNITS

- **Project Status**: Completed
- **Project Name**: Boston Waterfront Units
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Boston, USA
- **Scope**: Residential – Full Bespoke Interior Furnishing

The Boston Waterfront Units capture the essence of luxury living through Able's bespoke furniture collection, designed to elevate both modern interiors and timeless residential settings. Every detail reflects a commitment to style and sophistication, with tailored pieces crafted to balance function and elegance.

The spacious living area is defined by custom seating solutions that pair classic charm with contemporary flair, while the dining and kitchen areas feature cohesive designs that seamlessly blend comfort with refinement. An abundance of natural light highlights vibrant accents and material choices, enhancing the home's inviting and airy aesthetic.

This project exemplifies Able's ability to transform residential interiors into spaces that inspire and captivate, delivering an experience of refined living along Boston's iconic waterfront.

BOSTON REAL ESTATE STAGING UNIT

- **Project Status**: Completed
- **Project Name**: Boston Real Estate Staging Unit
- **Designed by**: Design Group 47
- **Furnished by**: Able – Entirely bespoke furniture
- **Location**: Boston, USA
- **Scope**: Residential – Real Estate Staging & Full Bespoke Furnishing

This real estate staging project in Boston, designed by Design Group 47 and fully furnished by Able, epitomizes modern elegance and sophistication. The interiors highlight bespoke craftsmanship and luxurious finishes, creating a living environment that is both inviting and aspirational.

The residence features two distinct living areas: one defined by a trio of custom armchairs arranged by the fireplace to create a warm, intimate setting, and the other anchored by a leather sofa paired with matching armchairs, designed for both comfort and refinement. The dining area elevates the space with a bespoke ceramic dining table complemented by a curated mix of seating options, showcasing Able's versatility in tailoring pieces to client needs.

With an emphasis on rich textures, sleek lines, and natural light, this project delivers a cohesive and visually striking environment—demonstrating Able's strength in transforming real estate staging into timeless expressions of modern living.

MICROSOFT KING DIVISION OFFICES

- **Project Status**: Completed
- **Project Name**: Microsoft King Division Offices
- **Location**: Berlin, Germany
- **Project Done By**: Alchemy UK in collaboration with Able
- **Scope**: Commercial – Office Furnishing & Fit-Out

Products Selected from Able Collection:

- Edward Sofa
- Kai Circular Seating Alcoves
- Natura Sofa
- Altea Stools
- Agim Swivel Chairs
- Katherine Recline Chairs
- Yara Chairs
- Rene Chairs
- Moon Chairs
- Amelia Chair & Footstool
- Hena Coffee Tables
- Grey Coffee Table

Able collaborated with Alchemy UK to deliver the furnishing and fit-out for Microsoft's King Division offices in Berlin. The project reimagined a former warehouse along the River Spree into a vibrant destination office, blending workspaces with areas for socializing, collaboration, and wellbeing.

The scheme specified a wide range of Able products—integrating sofas, chairs, stools, and tables—to create an atmosphere that balances functionality with comfort. The result is a mix of office, residential, and hospitality-inspired settings, enhanced with urban, edgy art wall graphics to reflect the youthful, dynamic demographic of the staff.

By combining bespoke craftsmanship with versatile design solutions, Able ensured that the interiors not only supported productivity but also elevated the overall employee experience within a contemporary, industrial aesthetic.

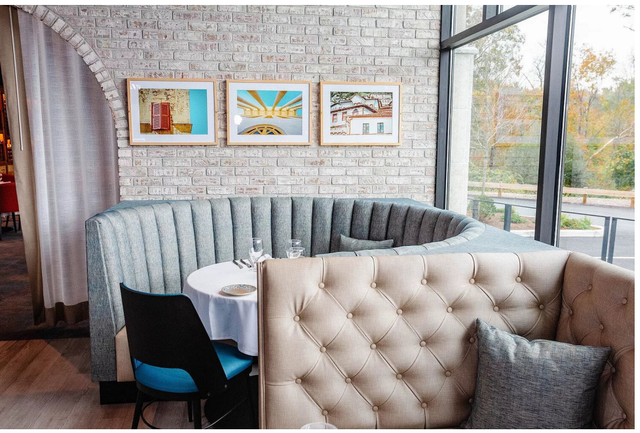
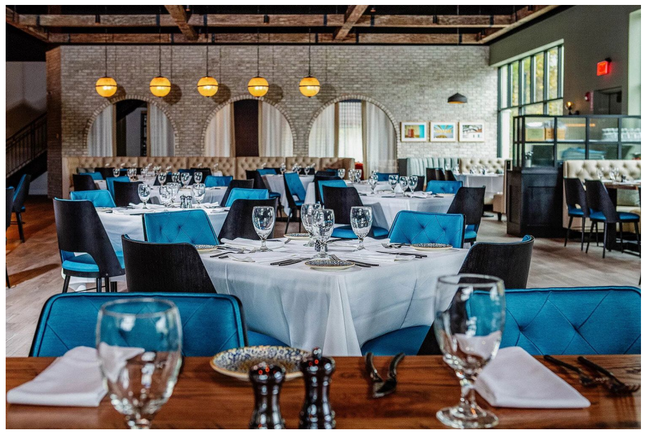
- **Project Name**: Alba on 53 Hanover
- **Location**: Boston, USA
- **Scope**: Restaurant – Interior Fit-Out & Furnishing

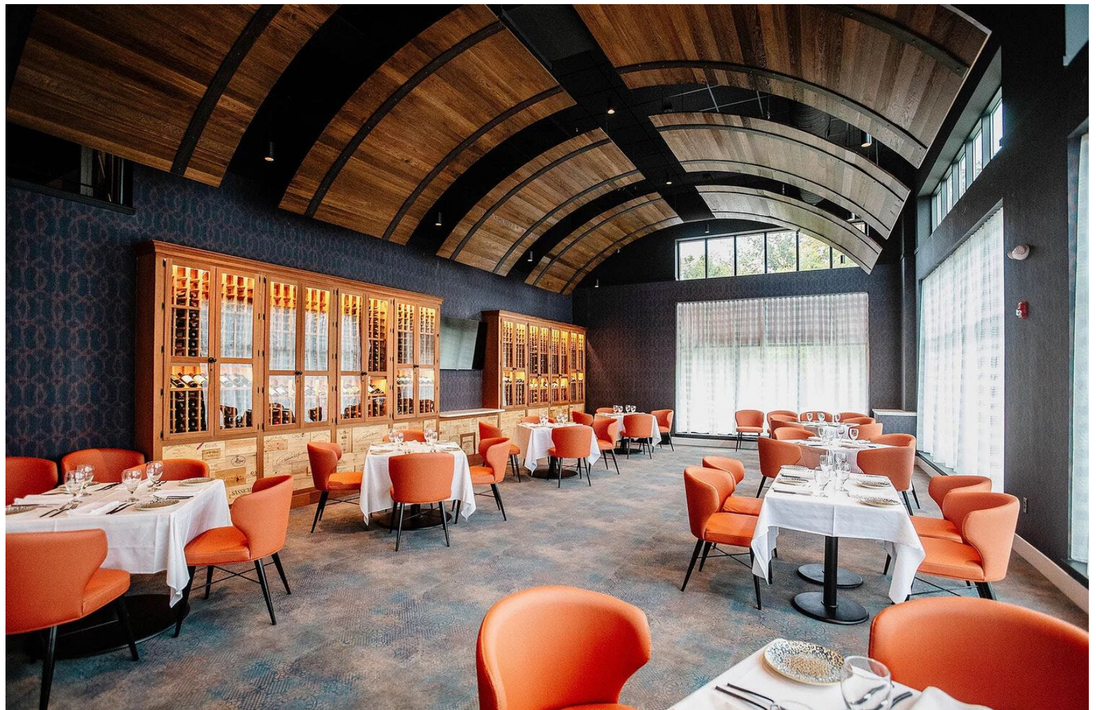
Products Selected from Able Collection:

- Custom Marble Dining Tables
- Upholstered Dining Chairs
- Lounge Seating

Able furnished Alba on 53 Hanover with fully bespoke dining furniture and finishes. The project emphasized contemporary design and comfort, with custom seating and tables manufactured and installed by Able. The result reflects a cohesive restaurant identity achieved through precise execution and detail-oriented craftsmanship.







MEDICAL CENTER HAXHIU

- **Project Status**: Completed (2025)
- **Project Name**: Medical Center Haxhiu
- **Designed by**: Able Studio
- **Furnished by**: Entirely Able products
- **Location**: Albania
- **Scope**: Commercial – Office & Beauty Clinic Fit-Out

Able Studio undertook the full design and furnishing of Medical Center Haxhiu, a dual-purpose office and beauty clinic in Tirana. The interiors were conceived to balance professional efficiency with a refined sense of comfort and wellbeing, catering to both staff and clients.

The project showcases Able's ability to integrate bespoke furniture and architectural finishes into a modern healthcare environment. Reception areas, consultation rooms, lounges, and beauty treatment spaces were all fully customized, featuring warm textures, elegant lighting, and contemporary design details.

By combining functionality with hospitality-inspired aesthetics, Able transformed Medical Center Haxhiu into a space that fosters professionalism, care, and relaxation—demonstrating the brand's versatility in executing high-end projects across multiple sectors.

KATSUO

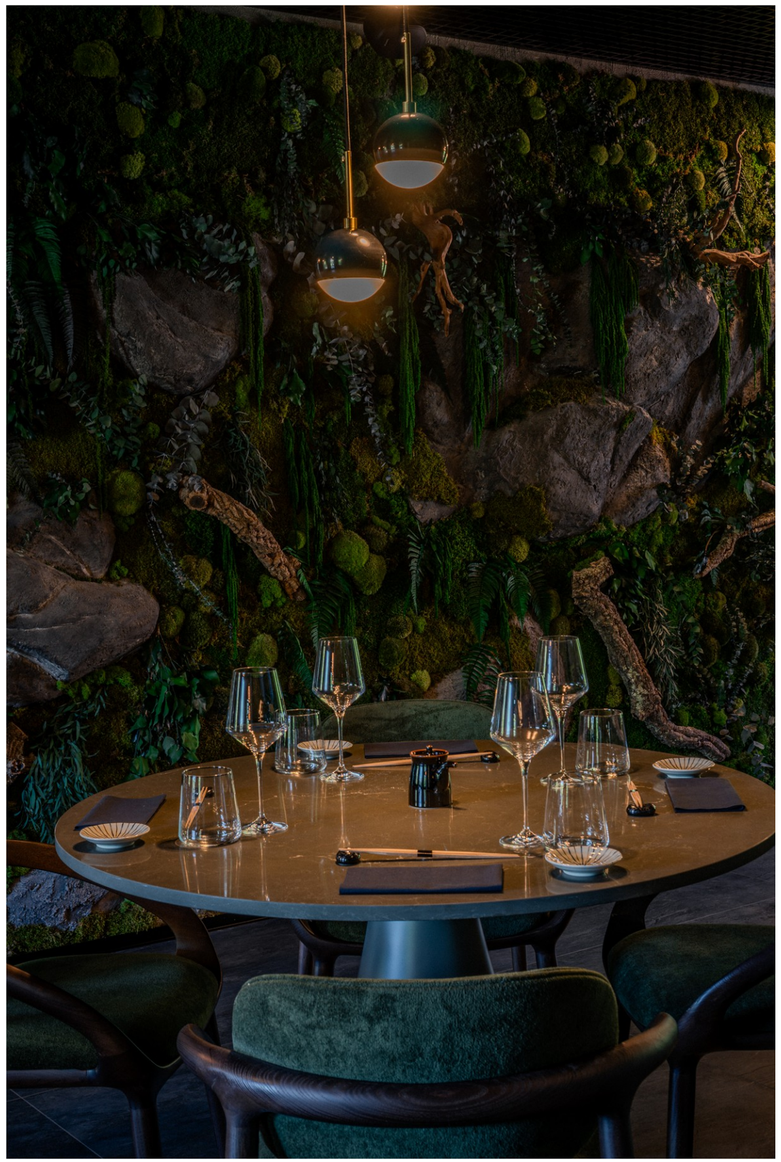
- **Project Status** : Completed (2026)
- **Project Name** : Katsuo
- **Location** : Warsaw, Poland
- **Designed by** : Client’s own concept, executed by Able
- **Furnished by** : Entirely Able products
- **Scope** : Commercial – Restaurant & Bar Full Furnishing

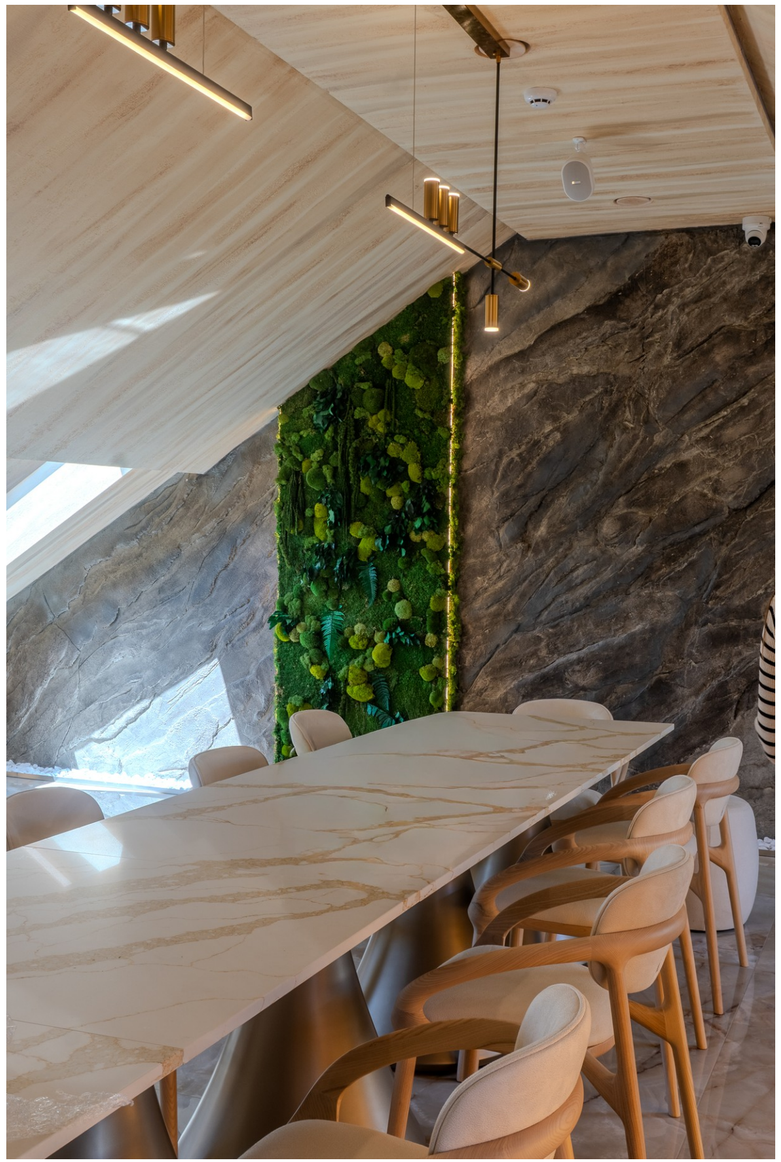
Katsuo is a contemporary Japanese restaurant and bar in Warsaw, delivered by Able for a client who arrived with a fully resolved design. Able took on the complete furnishing of the venue, translating the drawings into finished pieces and installing them across every area of the space.

The interior moves between two moods. In the dining rooms, deep green velvet armchairs and channelled banquettes sit against corten steel, textured stone, and preserved moss, lit by onyx and brass pendants. At the sushi counter, a backlit onyx worktop runs the length of a cooler room finished in dark slate, with pale blue stools drawn up along its edge.

Every seat, banquette, and table was produced by Able. Dining chairs in solid ash with velvet upholstery, curved bar seating, stone-topped tables, and the upholstered banquette runs were manufactured in-house and delivered ready for installation.

Katsuo shows Able’s capacity to execute another studio’s vision with precision, holding to the client’s intent while carrying full responsibility for production, quality, and fit-out.





A curated selection of images presenting the Able Collection in both public and private interiors around the world.

Each project tells a unique story, revealing how Able's designs seamlessly adapt to diverse settings from refined lounges and hotel suites to modern residences, restaurants, and boutique spaces.

Timeless style, craftsmanship, and comfort define every environment, reaffirming Able's contemporary vision and its ability to bring harmony and elegance to any architectural context.

Able
